## UNFORTUNATE ITALIAN GOT IN FRONT OF ENGINE AND WAS TERRIBLY HURT

His Skull Fractured and His Shoulder Crushed  
But He Still Showed Great  
Nerve.

In trying to avoid a fast moving freight train on the west bound track of the C. & P. railroad, at a point near the new plant of the Jaunita mill, in the East End, Luigi Patulla, an Italian laborer, was struck down and terribly injured by the pony engine moving at a rapid rate along the east bound track. Patulla could not hear the approach of the pony engine, owing to the noise made by the freight train. His act, in stepping onto the other track, was a most careless one.

The pony engine was preceded by a box car, which struck Patulla on the left shoulder. He was sent sprawling along the tracks, to the horror of his companions, and the car, tender and engine, passed over his body. Fortunately in falling he kept clear of the rails and thus escaped instant death. Some low hanging part of the engine struck him upon the head, making two wounds terrible to look upon.

The crew of the pony engine placed Patulla aboard the engine and took him to the East End passenger platform, and Dr. Grimes and Captain Terrence, of the East End fire station, were called. The former remained with the wounded man and the latter sent in an ambulance call to central station. As soon as possible the wounded man was taken to the office of Dr. W. A. Hobbs, the local C. & P. surgeon.

Patulla's injuries were of such a nature that a complete examination was necessary to determine their extent. The left shoulder is horribly lacerated and cut and the shoulder blade and probably other bones are broken. It is thought that the skull is fractured, although there was no oppression and the wounded man retained consciousness. Patulla cannot speak a word of English and it was necessary to have an interpreter present to secure his consent to the use of an anesthetic. Patulla steadfastly refused his consent and although in excruciating pain, he bore it with wonderful bravery.

The care of the injuries required almost an hour of work on the part of Dr. Hobbs, assisted by Dr. Grimes. It was necessary to shave the head and chisel the skull, the latter act causing the wounded man terrible agony.

At a late hour this afternoon the physicians hesitated to express an opinion about his chances for recovery.

Patulla is one of the regular section

## AUDITORS TO MEET TO DISCUSS CODE

This City to Be Represented at an  
Important Ohio  
Gathering.

## QUESTIONS THAT PUZZLE

City Auditor Willis Davidson is in receipt of a letter from the auditor of the city of Chillicothe requesting his presence at a meeting to be held at Columbus during the last week of this month or the first of next. Auditors and legal advisers from all over cities of the state will be present, and it is expected that much general good will be derived from the meeting. Auditor Davidson states that he will most assuredly avail himself of the opportunity of acquiring the knowledge to be gained there.

The prime object of the meeting will be to discuss the provisions of the code as they relate to auditors. Under these provisions there are numerous tangible points that are understood by scarcely any of the auditors of the state, and as it will be absolutely necessary for every auditor to be conversant with every rule next year the meeting will doubtless be largely attended. One of the most important topics to be taken up at the meeting will be the reports that are to be made annually by the auditors.

The auditors are not clear on this question. They were informed a few months ago that it would be necessary for them to make an annual report to the state auditor, the order becoming effective this year. Since receiving that order they have been informed that the annual reports will not be demanded until 1904. As the matter of compiling the reports will require considerable time, it is considered of much importance to the auditors. They do not want to be compelled to make a report and have it turned down, but they do want to do the work if it is the rule of the code.

Not in past years have the auditors been compelled to render such a report to the state auditor. Auditor Davidson contends that the code requires a uniform system of accounting, but that it does not take effect until January 1, 1904. This is contrary to orders of Special Examiner MacKenzie, who, it will be remembered, spent considerable time in the city a few months ago, but it is based on the statement of another state employee who was in the city a short time after the departure of Mr. MacKenzie. He

## NEW DIRECTOR OF THE Y. M. C. A.

H. H. Pollard, of Chicago, Will Take  
Charge in Three  
Weeks.

H. H. Pollard, of Chicago, will be the new Y. M. C. A. secretary. He has notified the directors of his acceptance of the call extended and expects to arrive here and begin work in about three weeks. Meantime Physical Director State will be in charge.

Mr. Pollard is an experienced man and an efficient Y. M. C. A. worker and the directors selected him from a large number of available candidates.

## DATE IS FIXED FOR BIG RALLY

Republicans Will Hear Orators of  
Wide Reputation Next  
Wednesday Night.

## AT GRAND OPERA HOUSE

A monster Republican demonstration will be held in this city next Wednesday evening, October 28. This decision was arrived at when the city Republican committee met last night.

Word was received by Chairman W. L. Smith yesterday that Chairman Dick of the state committee had arranged for the appearance of United States Senator Clapp, of Minnesota, and Hon. J. J. Sullivan, United States district attorney, at East Liverpool on the date mentioned. The local committee decided to go to work at once upon the preparations for the big rally. Arrangements will be made with the theatrical company playing at the Grand next week for the use of the opera house and the meeting will likely be held there.

The speakers are among the most powerful platform orators in the United States and the fact that they will be here together gives the people of the city an opportunity to hear a feast of oratory rarely provided in one evening.

Ex-Senator W. V. Blake was selected to act as chairman of the big meeting, and a committee composed of Secretary McGarry, Justice J. N. Rose and A. E. Crider was appointed to choose the vice presidents. Several other committees were selected as follows:

Reception—J. N. Rose, W. V. Blake, W. M. Hill and S. R. Dixon.

Printing—H. W. Smith, H. E. Bullock and C. G. Mettsch.

Music—David Mackintosh, Leroy Orr and William Randolph.

Secretary McGarry was ordered to negotiate with the state committee for the services of Randolph Wattan for a speech in the East End some time before the election. S. R. Dixon and William Kinney, both members of the committee from the First ward, will have charge of the arrangements for the East End meeting.

A gratifying report was made by the finance committee appointed several days ago, and the meeting adjourned to meet at the call of the chairman in case it was deemed necessary to hold another session before the big demonstration.

Salem, October 22.—The action of the creditors of the bankrupt clothing firm of Myers & Wengrow in accepting the proposition of a settlement on a 40 per cent basis is preliminary to the closing up of the affair.

## PITTSBURG TO CHICAGO BY TROLLEY PULLMANS

Columbus, October 22.—(Special).—Official announcement has been made by high officers of the Appleyard syndicate of street railway companies of the proposed plan to operate electric sleeping cars from Chicago to Pittsburgh.

This the company promised to do within the next 18 months, and from present indications the promise will be kept. Included in this route the following cities have been named through which the new cars will be operated: Milwaukee, St. Louis, Cincinnati, Louisville, Terra Haute, Cleveland, Detroit, Pittsburgh and Port Huron.

It will be seen by this announcement that an immense amount of territory is being covered by the syndicate. Just at this time arrangements have been practically completed, and

## JUST TAXATION A LIVE QUESTION

People of Ohio Want the Proposed  
Amendment to the Con-  
stitution.

## PAVES WAY FOR REFORM

It Is Not a Single Tax Measure, But  
One Which Business Interests Every-  
where Advocate And Endorse.  
What It Will Accomplish.

From a Staff Correspondent.

Columbus, October 22.—As election day approaches interest in the proposed taxation amendment to the constitution increases among the thinking people throughout the state. The campaign of education that has been conducted with the object of giving to Ohio a just system of taxation has been the most effective and the profers of assistance that are being tendered to the many business organizations back of the amendment show that the subject of taxation has been carefully studied by thousands of voters.

One objection urged against the amendment is that it is a single tax measure.

In an appeal to the voters just issued by the Ohio State Board of Commerce, which represents scores of subsidiary business organizations, the single tax charge is met with this denial and explanation:

"The representation that this is a single tax amendment is unintelligent or malicious.

"This board is responsible for the submission of this amendment to the people. We have published a statement of taxation principles by which we are guided, in which there is no trace of a single tax theory.

"In further proof that this board, the business organizations that are its constituent members, and the business men who are its active members, has not proposed and are not advocating a single tax measure, we have proposed 12 classes of subjects to be classified as subjects for state and local taxation."

The state board's appeal to voters contains this program of future work in the event the amendment is adopted:

"Responsibility for the pending taxation amendment to the constitution makes it the duty of this board to assure the people of the state that it will safeguard every interest against undesirable results. Following the adoption of this amendment we will formulate a general revenue measure and recommend it for enactment by the general assembly. We will employ the ablest accountants, economists and counselors we can retain. We will submit the full text of the entire measure to all members of this board and will publish the same, after it has been approved by the executive committee for the information of all of the people. We will endeavor to make tax evasion, double taxation and the necessity of inquisitorial methods things of the past in Ohio.

"The accomplishments of these purposes will make Ohio the best state in the union in which to earn a living, own property and operate a business."

The proposed taxation amendment has the endorsement of these business organizations of the state: Cincinnati Chamber of Commerce, Cincinnati Stock Exchange, Cincinnati Commercial club, Cincinnati Business Men's club, Cleveland Chamber of Commerce,

Cleveland Builders' Exchange, Columbus Board of Trade, Columbus Metal Trades Association, Portsmouth Board of Trade, Tiffin Board of Trade, Springfield Commercial club, the Employers' Association of Akron, Sandusky Chamber of Commerce, Galion Commercial club, Elyria Chamber of Commerce, Shelby Colonial club, Martin's Ferry Board of Trade, Lima Board of Trade, Canton Board of Trade, Oberlin Board of Trade, Marietta Board of Trade, Mansfield Manufacturers' association. The Ohio State Grange, through S. H. Ellis, chairman of the executive committee, endorses the amendment, as do hundreds of individuals throughout the state who are devoting their own efforts to secure votes for the proposition.

## THE TOWN PUMP TO BE REPAIRED

Mayor Weaver Says It Shall Be So  
Going at His Own  
Expense.

## SCORES PETTY ECONOMY

Mayor Weaver proclaimed this morning that the Diamond pump shall not be merely a fixture, that it shall be repaired and kept in a useful condition hereafter. The declaration of the chief executive will be hailed with delight by the hundreds of citizens who have been compelled to suffer for the want of the cooling, pleasant and exhilarating mineral water that has been one of the greatest attractions the Diamond has ever had.

Until yesterday the mayor did not realize why the pump is not in operation and he decided immediately to take steps to have it started. Going to the fire station this morning he was told that the pump is badly in need of pairs and that it was necessary to stop the flow of water. Fireman Rose, who has attended to the pump for years, stated that he went before the board of public service and requested that he be given the authority to purchase the necessary articles for the repair of the pump and that the board referred him to the board of safety. He presented the matter to the latter board and it referred him back to the service board. Feeling that he had done all within his power, Mr. Rose decided not to molest the pump, nor deeming it right that he should purchase the necessary fixings, and the pump was allowed to remain idle.

Learning the condition of affairs, Mayor Weaver instructed Chief Morley, of the fire department, to have the pump repaired, giving the assurance that he would pay the bill. "It is a public necessity," said the mayor. "That pump is used by hundreds of people and it should be kept in perfect running order all the time. The action of the boards concerning it is not in the least commendable. I most certainly do not approve of this 'grand stand playing' on the part of some of the members, when they refuse to attend to public necessities of so grave importance, by warding it off with the statement, 'It is economy that we must practice.' Such economy is false and it looks much as if those practicing it are doing it for an effect known only to themselves."

The cost of keeping the pump in repair will not exceed \$25 per year, and it will be conceded that satisfaction worth more than that amount is derived from it in a day. The people are used to the water and they need it. The cost being so little, the mayor as well as the numberless others consider it anything but economy to keep it from operation.

The mayor does not expect to be compelled to stand for the cost of maintaining the pump throughout his administration. He thinks that after the present unpleasantness is over some action will be taken whereby a fund will be provided for the pump, but he states he will not see the pump idle at any cost.

## STREET RAILWAY WORK ON THE NEW CONGO LINE WILL START VERY SOON

Franchise Requires That It Must Be Commenced  
by the 7th of Next Month in Or-  
der to Be Legal.

Within the next few days arrangements will be made for starting work on the extension of the East Liverpool & Rock Springs railway to Congo. The construction force has been employed in East Liverpool for several weeks, and its work there will be completed in the next few days. After that the force will be ready to begin the task on this side of the river.

It will be remembered that the court of Hancock county deliberated upon the merits of the two propositions—one submitted by the C. A. Smith interests and the other laid before the commissioners by the capitalists interested in the development of the old Lloyd tract, now known as the town of Newell—and finally, after hearing both sides, granted a franchise to each.

The Smith grant provides for a right of way from the present lines of the Southside railway to Congo, and so on from there via the county road to New Cumberland.

The franchise given to the Newell people includes a right to construct a road from the point known as Newell's landing down the river along the county road. As the grant is interpreted by the general public the Newell people must have their bridge plans accepted by the government and arrangements made for the building of

the structure before their franchise will be worth more than merely the paper it is written on. If this construction is correct, the Smith interests have decidedly the best of the argument, and may, if they so desire, proceed with the construction of their line without interruption.

The franchises granted by the Hancock county authorities provides, in each case, that the work shall be commenced on or before November 7, less than one month hence and it is held by those interested in having the line built, that nothing has so far developed that will prevent the Rock Springs people from going ahead with the work at once.

A serious handicap to all railway extensions has appeared lately in the shape of a scarcity of steel rails, such as are used in street railway work. It is stated upon the very best authority that no one has influence or "pull" enough to secure steel in a shorter time than any one else. The orders, in every case, must be placed seven months ahead of time, or the work, no matter how important, will be delayed.

This feature of the operations of the Smith interest may impair the progress of the work, but it is stated a great deal of work may be done before the rails will be needed.

## BADLY POUNDED BY THREE MEN

COAL OPERATOR TELLS A HAR-  
ROWING TALE IN COURT.

Trouble Grew Out of a Dispute As to  
Rights on a  
Farm.

Lisbon, October 22.—(Special).—The case of George, Cyrus and John Newhouse, of Elkrun township, father and two sons, charged with assault and battery on Charles Herriott, on May 9, came up for trial by the jury this morning.

Herriott has had charge of the Newhouse coal mine on the Newhouse farm, which he and an associate bought from another company three years ago last May. There has been a dispute for some time between the owners of the farm and the proprietors of the mine as to surface and other privileges.

On the day of the assault Herriott went to a spring near the coal tippie to get a jug of water for the men at work. He had just filled the jug when John Newhouse, coming up behind, attacked him, and throwing him down, began to beat him with his fists. John was quickly joined by his brother, Cyrus and his father, the latter armed with a piece of fence rail and the three gave Herriott a terrible beating, the elder Newhouse clubbing him over the left shoulder, arm and hip.

When they were through with him, Herriott said he was bleeding from the nose and mouth and so badly used up that he did not fully recover for a month.

Fremont, October 22.—(Special).—Thieves this morning blew open the small safe in St. Joseph's Catholic church and carried off valuable articles belonging to the altar and \$100 in cash.

## AN INCREASE IN THE SINKING FUND

Council May Turn Down a Propo-  
sition From the Public  
Service Board.

## TRYING TO REDUCE DEBT

A communication was received yesterday by City Auditor Davidson from Clerk J. W. Gipner, of the board of public service. It stated that the board had decided to place \$2,000 of the money received through the water works department of this city into the sinking fund for the purpose of applying it to the debt standing against the water works.

This, it will be remembered, was officially decided upon by the board at its last regular meeting, a motion by Mr. Smith being made to that effect after offering the explanation that the water works department needed the amount to assist in carrying the debt.

It is expected that council will turn down the request of the board. It is thought that the members will raise objections on the ground that the board of public service should not be allowed to dictate as to what disposition shall be made of the funds received through the department. The councilmen are reported to be favorable to applying money to the sinking fund, but they want it placed there subject to withdrawal for any debt of the city.

Notwithstanding that the members of council will likely refuse to grant the request of the board they feel that the board is working along the proper lines and commend its members for the steps taken. They realize that the debt of the water works is enormous, amounting to more than \$150,000, and that during the years of the past the city council has been called upon regularly to pay the interest, which is no little sum. They are pleased to know that the board of public service is making a stride toward decreasing the principal and feel that the board economy can not only take care of the interest every year, but that it can cut down the principal quite materially.

It was reported at the last meeting of the board that there are now \$8,000 in the water works treasury and the prospects seem bright for an increase in the near future. The board has the water works system in perfect working order now, on a paying basis, and in a condition very promising.

## DATE IS FIXED FOR BIG RALLY

Republicans Will Hear Orators of Wide Reputation Next Wednesday Night.

## AT GRAND OPERA HOUSE

A monster Republican demonstration will be held in this city next Wednesday evening, October 28. This decision was arrived at when the city Republican committee met last night.

Word was received by Chairman W. L. Smith yesterday that Chairman Dick of the state committee had arranged for the appearance of United States Senator Clapp, of Minnesota, and Hon. J. J. Sullivan, United States district attorney, at East Liverpool on the date mentioned. The local committee decided to go to work at once upon the preparations for the big rally. Ex-Senator W. V. Blake was selected to act as chairman of the big meeting, and a committee composed of Secretary McGarry, Justice J. N. Rose and A. E. Cridler was appointed to choose the vice presidents. Several other committees were selected as follows:

Reception—J. N. Rose, W. V. Blake, W. M. Hill and S. R. Dixon.

Printing—H. W. Smith, H. E. Bullock and C. G. Metcalf.

Music—David Mackintosh, Leroy Orr and William Rendolph.

Secretary McGarry was ordered to negotiate with the state committee for the services of Randolph Wattan for a speech in the East End some time before the election. S. R. Dixon and William Kinney, both members of the committee from the First ward, will have charge of the arrangements for the East End meeting.

A gratifying report was made by the finance committee appointed several days ago, and the meeting adjourned to meet at the call of the chairman in case it was deemed necessary to hold another session before the big demonstration.

## PITTSBURG TO CHICAGO BY TROLLEY PULLMANS

Columbus, October 22.—(Special.)—Official announcement has been made by high officers of the Appleyard syndicate of street railway companies of the proposed plan to operate electric sleeping cars from Chicago to Pittsburgh.

This company promised to do within the next 18 months, and from present indications the promise will be kept. Included in this route the following cities have been named through which the new cars will be operated: Milwaukee, St. Louis, Cincinnati, Louisville, Terra Haute, Cleveland, Detroit, Pittsburgh and Port Huron.

It will be seen by this announcement that an immense amount of territory is being covered by the syndicate. Just at this time arrangements have been practically completed, and

Cleveland Builders' Exchange, Columbus Board of Trade, Columbus Metal Trades Association, Portsmouth Board of Trade, Tiffin Board of Trade, Springfield Commercial club, the Employers' Association of Akron, Sandusky Chamber of Commerce, Galion Commercial club, Elyria Chamber of Commerce, Shelby Colonial club, Martin's Ferry Board of Trade, Lima Board of Trade, Canton Board of Trade, Oberlin Board of Trade, Marietta Board of Trade, Mansfield Manufacturers' association. The franchises granted by the Hancock county authorities provides, in each case, that the work shall be commenced on or before November 7, less than one month hence and it is held by those interested in having the line built, that nothing has so far developed that will prevent the Rock Springs people from going ahead with the work at once.

A serious handicap to all railway extensions has appeared lately in the shape of a scarcity of steel rails, such as are used in street railway work. It is stated upon the very best authority that no one has influence or "pull" enough to secure steel in a shorter time than any one else. The orders, in every case, must be placed seven months ahead of time, or the work, no matter how important, will be delayed.

This feature of the operations of the Smith interest may impair the progress of the work, but it is stated a great deal of work may be done before the rails will be needed.

## BADLY POUNDED BY THREE MEN

COAL OPERATOR TELLS A HARROWING TALE IN COURT.

Trouble Grew Out of a Dispute As to Rights on a Farm.

Lisbon, October 22.—(Special.)—The case of George, Cyrus and John Newhouse, of Elkrun township, father and two sons, charged with assault and battery on Charles Herriott, on May 9, came up for trial by the jury this morning.

Herriott has had charge of the Newhouse coal mine on the Newhouse farm, which he and an associate bought from another company three years ago last May. There has been a dispute for some time between the owners of the farm and the proprietors of the mine as to surface and other privileges.

On the day of the assault Herriott went to a spring near the coal tippie to get a jug of water for the men at work. He had just filled the jug when John Newhouse, coming up behind, attacked him, and throwing him down, began to beat him with his fists. John was quickly joined by his brother, Cyrus and his father, the latter armed with a piece of fence rail and the three gave Herriott a terrible beating, the elder Newhouse clubbing him over the left shoulder, arm and hip.

When they were through with him, Herriott said he was bleeding from the nose and mouth and so badly used up that he did not fully recover for a month.

## AN INCREASE IN THE SINKING FUND

Council May Turn Down a Proposition From the Public Service Board.

## TRYING TO REDUCE DEBT

A communication was received yesterday by City Auditor Davidson from Clerk J. W. Gipner, of the board of public service. It stated that the board had decided to place \$2,000 of the money received through the water works department of this city into the sinking fund for the purpose of applying it to the debt standing against the water works.

This, it will be remembered, was officially decided upon by the board at its last regular meeting, a motion by Mr. Smith being made to that effect after offering the explanation that the water works department needed the amount to assist in carrying the debt. It is expected that council will turn down the request of the board. It is thought that the members will raise objections on the ground that the board of public service should not be allowed to dictate as to what disposition shall be made of the funds received through the department. The councilmen are reported to be favorable to applying money to the sinking fund, but they want it placed there subject to withdrawal for any debt of the city.

Notwithstanding that the members of council will likely refuse to grant the request of the board they feel that the board is working along the proper lines and commend its members for the steps taken. They realize that the debt of the water works is enormous, amounting to more than \$150,000, and that during the years of the past the city council has been called upon regularly to pay the interest, which is no little sum. They are pleased to know that the board of public service is making a stride toward decreasing the principal and feel that the board by economy can not only take care of the interest every year, but that it can cut down the principal quite materially.

It was reported at the last meeting of the board that there are now \$8,000 in the water works treasury and the prospects seem bright for an increase in the near future. The board has the water works system in perfect working order now, on a paying basis, and in a condition very promising.

## AUDITORS TO MEET TO DISCUSS CODE

This City to Be Represented at an Important Ohio Gathering.

## QUESTIONS THAT PUZZLE

City Auditor Willis Davidson is in receipt of a letter from the auditor of the city of Chillicothe requesting his presence at a meeting to be held at Columbus during the last week of this month or the first of next. Auditors and legal advisers from all over cities of the state will be present, and it is expected that much general good will be derived from the meeting. Auditor Davidson states that he will most assuredly avail himself of the opportunity of acquiring the knowledge to be gained there.

The prime object of the meeting will be to discuss the provisions of the code as they relate to auditors. Under these provisions there are numerous tangible points that are understood by scarcely any of the auditors of the state, and as it will be absolutely necessary for every auditor to be conversant with every rule next year the meeting will doubtless be largely attended. One of the most important topics to be taken up at the meeting will be the reports that are to be made annually by the auditors.

The auditors are not clear on this question. They were informed a few months ago that it would be necessary for them to make an annual report to the state auditor, the order becoming effective this year. Since receiving that order they have been informed that the annual reports will not be handed in until 1904. As the matter of compiling the reports will require considerable time, it is considered of much importance to the auditors. They do not want to be compelled to make a report and have it turned down, but they do want to do the work if it is the rule of the code.

Not in past years have the auditors been compelled to render such a report to the state auditor. Auditor Davidson contends that the code requires a uniform system of accounting, but that it does not take effect until January 1, 1904. This is contrary to orders of Special Examiner MacKenzie, who, it will be remembered, spent considerable time in the city a few months ago, but it is based on the statement of another state employee who was in the city a short time after the departure of Mr. MacKenzie. He

## WEST END POTTERY'S PROPOSED WATER PLUG

President Grafton, of the Safety Board, Does Not Favor Granting the Request.

The board of public safety will hold its regular weekly meeting this evening. Among numerous other matters to be taken up is the question of whether or not it will be advisable to furnish the West End Pottery company with a larger water plug than the one now stationed near the plant.

If the members carry out the plan spoken of at the last meeting they will not grant the request unless the company agrees to stand for the entire cost. President Grafton stated last evening that he would not favor the placing of the desired plug. "It is not because I would not like to see the company get the plug," said Mr. Grafton. "Quite the contrary, I would like to see the company get anything to help it along. My only objection is based on the fact that if we give this company a larger plug it will be only a matter of a few days until some other firm or some individual will come to us and demand one. Then we cannot refuse. We would not have the right to do for one what we would not do for another. If we had plenty of money, maybe we could consider some of the requests made of us, but we have hardly enough to get through our absolutely necessary work, and have not a penny to apply to such improvements. Other companies in the city have placed plugs near their plants at their own cost, and I do not see why the West End company cannot do the same."

Mr. Ogilvie, another of the safety board members, advocated the same side of the question at the last meeting and it is thought nothing will be done at the meeting tonight further than instructing the company that it can do the work at its own expense.

Many Got Plants.

The distribution of plants at Thompson park yesterday attracted a great crowd and gave Supt. McCarthy and his men a busy day. The Calcutta road line carried more passengers than for many a day.

## News and Notes About The Potteries

### CHANGE IN DRAWING.

Some radical changes will result if the new wage scale and working conditions of the kilndrawers are enforced to the letter. The stipulation that a kiln shall not be drawn in less than seven hours will render it impossible, it is claimed, for the present kilndrawing forces at the different plants to do the drawing, unless extra hours, amounting almost to a double turn are put in. Before the two-year agreement went into effect kilns were drawn in much less time than seven hours, the crew easily making two days in one, like the kiln placers. Under the present condition it can be readily seen that to do a double turn, or draw two kilns of the usual size in one day, the men must work 14 hours. The object in the provision that the crew shall put in seven hours on a kiln is mainly to lessen the amount of ware broken. This rule has only been in effect since the first of October and it has been demonstrated that although the men were given an advance in wages the firm more than saves the amount by the decreased percentage of breakage. It is stated that the manufacturers are very well pleased with the new arrangement.

The difference with the kilndrawers is not so noticeable as it would be if the plants were under full pressure. As an example it was stated today that with the Dresden making 22 kilns, another drawing crew of eight or nine men would be required to keep up with the work. Under such conditions many more kilndrawers, perhaps more than the local can supply at the present time, would be required in the local plants. If the plants keep busy up to the standard of last fall it means an increase of 100 or more workmen for the city.

### A GREATER DANGER.

London newspaper advices say that danger much greater than the reported buying up of the ball-clay mines of Devonshire threatens the English china trade at the present time. A report just received in Staffordshire shows that the supply of bone from South America will shortly cease, and without this commodity, the china trade cannot go on. Naturally, the report has created considerable alarm in North Staffordshire, and immediate steps are to be taken to find other sources of supply. Since early in the last century the English china manufacturers have very largely drawn their useful supplies of bone from the cattle-slaughtering districts of Rio Grande de Sul, where many thousands of cattle are killed annually. The bones of these animals have in the past been subjected to careful treatment, which rendered the resultant admirably adapted for china making, and of this over 6,000 tons were shipped annually to the Mersey ports for use in England. Lately, however, the Rio Grande farmers have found that better results and more money may be made by treating the bones in "digesters," and subsequently in kilns, and selling them to other industries. Unfortunately for the potteries, these new processes very considerably deteriorate the residual bone for potting purposes, and the supply is rapidly diminishing and will soon cease altogether.

### NEW OHIO POTTERIES.

A new art pottery may soon be established in Muskingum county, at Dresden. E. S. Gay, a prominent business man of that village, and who is interested in the Falence pottery there, has a new clay which he proposes to work into art goods. Tests of a satisfactory nature have been made, proving that exceptionally good clay lies under the Muskingum county soil.

With a capital stock of \$25,000 the Novelty Pottery company, of Crooksville, has been chartered at Columbus. The incorporators are S. H. Brown, W. D. Combs, P. E. Carpenter, W. T. Dailay and G. W. DeLong.

### GOING TO CROOKSVILLE.

Among the many operatives in this city who are to take positions at the Acme China company, the plant at Crooksville, are Cyrus Scarratt, Charles Morrow, Mike Cain and Jack Hanson. This quartet is only a small part of those who are to go from this city to Crooksville. They are to leave either today or tomorrow, the plant having been placed in readiness for operation. Scarratt has taken the seven-inch plate jigger, Morrow the cup jigger, Cain the five and six-inch jigger and Hanson the big dish bench.

### BUYERS ARE NUMEROUS.

Buyers have been more numerous in the city this week than for many months. While it would seem that decorated lines and holiday novelties would be in greatest demand, the reverse has proved true. The buyers have been taking bulk lots of ware, run of the kiln, and seconds and thirds, and their purchases will reach many thousands of dollars.

### POTTERY NOTES.

Some improvements have been made recently to the older parts of the Harter pottery buildings.

At Vody's the largest force of the year is at work in the decorating department. The plant is enjoying a fine run of business.

Owing to sickness in his family, Will Maley has concluded not to accept the situation offered him at Crooksville. He has taken a jigger at the Standard.

With its two plants the East Liverpool Pottery company is having a difficult time keeping abreast of orders. Both the Globe and the United States are working with full crews.

### PROTESTS BY THE SCORE ABOUT BAD STREETS

Complainants Say Dirt Is Scattered Promiscuously By Leaky Wagon Beds.

Protests by the score are reaching the ears of the board of public service, Mayor Weaver and other city officials as a result of the condition of certain streets. The complainants are up in arms. They allege that the thoroughfares are being literally covered with dirt, and that it is due to hauling from cellars, that are under construction, in wagon beds that are not closed.

Mr. Smith, of the board of public service, stated this morning that he was of the opinion that the board included a rule in the batch passed upon by council prohibiting the hauling of dirt or other refuse over the streets in loose wagon beds, but upon being told that the city auditor could find no record of the rule stated he would bring it before the board tomorrow evening and do all he could to have one passed.

### FOOLED WITH WIRES

Jury Returned a Verdict of Guilty in the Case of Peter Wollam.

Lisbon, October 22.—(Special).—In the case of Ohio versus Peter Wollam, charged with interfering with electric light wires in Wellsville, the jury returned a verdict of guilty yesterday afternoon.

Wollam was indicted on two charges, both for interfering with electric light wires. He was engaged in moving a house and the wires interfering with his work, disconnected them from a street lamp without asking permission or giving notice to the company. As a result 51 lamps were put out and over half of the city plunged in darkness. This is the case on which he was tried and convicted. The other offense consisted in removing a wire from a pole, letting it down in the street, greatly endangering every one who passed by.

The company, desiring to protect the public from unnecessary danger, decided to make an example in his case and to discourage further interference with wires. The penalty for such an offense is a fine of not less than \$50 nor more than \$1,000, or one to three years in the penitentiary, or both. The company announces its purpose of prosecuting all offenders to the extent of the law.

## A SETTLED STATUS OF INDUSTRY HERE

Encouraging Reports Received by Trades Council at Last Night's Meeting.

### NO CONTROVERSIES ON

And the Winter Promises to Be Prosperous for Workmen in East Liverpool—Much Routine Business Receives Attention.

From reports submitted at the meeting of Trades and Labor council last night it can be taken that the industrial situation in East Liverpool is in a more settled condition than for many months. No controversies are on, and the coming winter promises to be more prosperous for the workers' standpoint than any in recent years.

The session was a lengthy one, and much business was transacted. F. A. Midney, representing the university extension division of the University of Chicago, has been in the city for several days. The gentleman is arranging for the appearance of a number of lectures in surrounding cities where the working people are interested in the lecture course as a means of education. In the bureau represented by Mr. Midney are a number of eminent men thoroughly posted upon the economic questions of the hour. Courses have been arranged for at Erie, Pa., Wheeling, W. Va., Steubenville and several other towns. It was suggested that the central labor body here take up the matter and secure a place in the circuit. Mr. Midney was granted permission to address the council, and made a very comprehensive explanation of his plan. He stated, however, that the first number in the course of 12 lectures would be held in less than a month and the time was thought to be too short to give the matter proper publicity. The proposition will not be accepted at this time. It may be that the labor people will take up a short course of six lectures just after the first of the year.

But one new delegate was seated at the meeting last night, he being Thomas Baker, of the bartenders' local.

A communication was received from A. E. Kellington, general secretary-treasurer of the International Union of Flour and Cereal Mill Employees, in which he informed organized labor that 11 firms in the control of the Washburn-Crosby company, of Minneapolis, were on the non-union list.

The central labor union of Springfield, Mass., announced in a communication that a carnival was to be held there November 9-14 inclusive, and asked that 10 tickets be purchased by the council to aid the cause. The request was complied with.

A communication was received from Venier lodge, No. 350, International Association of Machinists, of Newbury, N. Y., setting forth the character of workmen employed by the Thomas A. Edison Phonograph company, of that city. The firm was non-union throughout, the letter said, and the members of the union were antagonized and harassed by it at every opportunity. The matter will be reported to the several locals in East Liverpool.

The auditing committee's report was not complete, and though all accounts were known to be in excellent shape, the report was deferred until the next meeting.

Treasurer J. E. Anderson and Financial Secretary Henry Schreiber made their semi-annual reports, both of which were received and ordered filed.

The labor day picnic committee made a partial report and its business will be in shape for a full and complete report by the next meeting.

The report of Delegate Criss McConnell, who represented the body at the convention of the Ohio Federation of Labor, was submitted, and consumed a greater portion of the time allotted to the meeting.

### Ohioan Released from Dungeon.

Washington, Oct. 22.—Frank Brown, a native of Mansfield, O., who has been languishing for nearly a year in an unclean dungeon in Guatemala, has been released. Brown shot an Italian, as he claimed, the result of an accident, but was imprisoned without trial. The department of state learned of Brown's condition through a letter he wrote to an Ohio paper and instituted investigation.

## WESTERN LINES ARE KEPT BUSY

FIFTY ENGINES SENT BY PENNSY TO HELP OUT.

No Prospect of Curtailment of Forces or Business West of Pittsburgh.

Pittsburg, October 22.—Traffic conditions of the Pennsylvania system have undergone a peculiar change in the past few weeks, which indicates that the bulk of business being handled on the company's lines originates and is confined largely to the lines west of this city. It is announced that the Pennsylvania Railroad company, lines east of Pittsburg, have delivered to the western lines about 50 engines to relieve the crowded conditions in that territory. The conditions of the trade in the east are said to be such that it is possible to transfer the motive power to the western lines. At present the greatest amount of business is being handled between the coal fields and the lakes in the efforts of the Pennsylvania to get as much coal out as possible before the closing of lake navigation.

While the lines east of Pittsburg are curtailing their working forces and making other retrenchments in the matter of ceasing unnecessary work the conditions west of this city are precisely the opposite. Up to this time the Pennsylvania company has issued no order affecting the various improvements, although it is said that no new work is to be undertaken this year. The company is also working with the same force of men and has but recently increased the working hours in all the shops. These conditions stand out in strong contrast against the present situation in the east. Beyond Altoona the Pennsylvania Railroad company is retrenching in every possible way. It is explained that the principal traffic of the present time is in the soft coal regions where the shipments continue heavy and will be so until the close of navigation.

An official of the Pennsylvania lines west this morning said that so far they have not felt the necessity of reducing the working forces, even to the extent of laying off men classed as extra who were taken on during the rush season. The traffic in both freight and passenger business continues heavy, and there is little credence given to the reports that the same measures will be pursued in the west as have been resorted to by the Pennsylvania Railroad company.

### NEW OHIO POTTERIES.

A new art pottery may soon be established in Muskingum county, at Dresden. E. S. Gay, a prominent business man of that village, and who is interested in the Faience pottery there, has a new clay which he proposes to work into art goods. Tests of a satisfactory nature have been made, proving that exceptionally good clay lies under the Muskingum county soil.

With a capital stock of \$25,000 the Novelty Pottery company, of Crooksville, has been chartered at Columbus. The incorporators are S. H. Brown, W. D. Combs, P. E. Carpenter, W. T. Dailley and G. W. DeLong.

### GOING TO CROOKSVILLE.

Among the many operatives in this city who are to take positions at the Acme China company, the plant at Crooksville, are Cyrus Scarratt, Charles Morrow, Mike Cain and Jack Hanson. This quartet is only a small part of those who are to go from this city to Crooksville. They are to leave either today or tomorrow, the plant having been placed in readiness for operation. Scarratt has taken the seven-inch plate jigger, Morrow the cup jigger, Cain the five and six-inch jigger and Hanson the big dish bench.

### BUYERS ARE NUMEROUS.

Buyers have been more numerous in the city this week than for many months. While it would seem that decorated lines and holiday novelties would be in greatest demand, the reverse has proved true. The buyers have been taking bulk lots of ware, run of the kiln, and seconds and thirds, and their purchases will reach many thousands of dollars.

### POTTERY NOTES.

Some improvements have been made recently to the older parts of the Harter pottery buildings.

At Vodrey's the largest force of the year is at work in the decorating department. The plant is enjoying a fine run of business.

Owing to sickness in his family, Will Valley has concluded not to accept the situation offered him at Crooksville. He has taken a jigger at the Standard.

With its two plants the East Liverpool Potteries company is having a difficult time keeping abreast of orders. Both the Globe and the United States are working with full crews.

## PROTESTS BY THE SCORE ABOUT BAD STREETS

Complainants Say Dirt Is Scattered Promiscuously By Leaky Wagon Beds.

Protests by the score are reaching the ears of the board of public service, Mayor Weaver and other city officials as a result of the condition of certain streets. The complainants are up in arms. They allege that the thoroughfares are being literally covered with dirt, and that it is due to hauling from cellars, that are under construction, in wagon beds that are not closed.

Mr. Smith, of the board of public service, stated this morning that he was of the opinion that the board included a rule in the batch passed upon by council prohibiting the hauling of dirt or other refuse over the streets in loose wagon beds, but upon being told that the city auditor could find no record of the rule stated he would bring it before the board tomorrow evening and do all he could to have one passed.

### FOOLED WITH WIRES

Jury Returned a Verdict of Guilty in the Case of Peter Wollam.

Lisbon, October 22.—(Special).—In the case of Ohio versus Peter Wollam, charged with interfering with electric light wires in Wellsville, the jury returned a verdict of guilty yesterday afternoon.

Wollam was indicted on two charges, both for interfering with electric light wires. He was engaged in moving a house and the wires interfering with his work, disconnected them from a street lamp without asking permission or giving notice to the company. As a result 51 lamps were out and over half of the city plunged in darkness. This is the case on which he was tried and convicted. The other offense consisted in removing a wire from a pole, letting it down in the street, greatly endangering every one who passed by.

The company, desiring to protect the public from unnecessary danger, decided to make an example in his case and to discourage further interference with wires. The penalty for such an offense is a fine of not less than \$50 nor more than \$1,000, or one to three years in the penitentiary, or both. The company announces its purpose of prosecuting all offenders to the extent of the law.

## A SETTLED STATUS OF INDUSTRY HERE

Encouraging Reports Received by Trades Council at Last Night's Meeting.

### NO CONTROVERSIES ON

And the Winter Promises to Be Prosperous for Workmen in East Liverpool—Much Routine Business Receives Attention.

From reports submitted at the meeting of Trades and Labor council last night it can be taken that the industrial situation in East Liverpool is in a more settled condition than for many months. No controversies are on, and the coming winter promises to be more prosperous for the workers' standpoint than any in recent years.

The session was a lengthy one, and much business was transacted. F. A. Midney, representing the university extension division of the University of Chicago, has been in the city for several days. The gentleman is arranging for the appearance of a number of lectures in surrounding cities where the working people are interested in the lecture course as a means of education. In the bureau represented by Mr. Midney are a number of eminent men thoroughly posted upon the economic questions of the hour. Courses have been arranged for at Erie, Pa., Wheeling, W. Va., Steubenville and several other towns. It was suggested that the central labor body here take up the matter and secure a place in the circuit. Mr. Midney was granted permission to address the council, and made a very comprehensive explanation of his plan. He stated, however, that the first number in the course of 12 lectures would be held in less than a month and the time was thought to be too short to give the matter proper publicity. The proposition will not be accepted at this time. It may be that the labor people will take up a short course of six lectures just after the first of the year.

But one new delegate was seated at the meeting last night, he being Thomas Baker, of the bartenders' local.

A communication was received from A. E. Kellington, general secretary-treasurer of the International Union of Flour and Cereal Mill Employees, in which he informed organized labor that 11 firms in the control of the Washburn-Crosby company, of Minneapolis, were on the non-union list.

The central labor union of Springfield, Mass., announced in a communication that a carnival was to be held there November 9-14 inclusive, and asked that 10 tickets be purchased by the council to aid the cause. The request was complied with.

A communication was received from Venier lodge, No. 350, International Association of Machinists, of Newbury, N. Y., setting forth the character of workmen employed by the Thomas A. Edison Phonograph company, of that city. The firm was non-union throughout, the letter said, and the members of the union were antagonized and harassed by it at every opportunity. The matter will be reported to the several locals in East Liverpool.

The auditing committee's report was not complete, and though all accounts were known to be in excellent shape, the report was deferred until the next meeting.

Treasurer J. E. Anderson and Financial Secretary Henry Schreiber made their semi-annual reports, both of which were received and ordered filed.

The labor day picnic committee made a partial report and its business will be in shape for a full and complete report by the next meeting.

The report of Delegate Criss McConnell, who represented the body at the convention of the Ohio Federation of Labor, was submitted, and consumed a greater portion of the time allotted to the meeting.

### Ohioan Released from Dungeon.

Washington, Oct. 22.—Frank Brown, a native of Mansfield, O., who has been languishing for nearly a year in an unclean dungeon in Guatemala, has been released. Brown shot an Italian, as he claimed, the result of an accident, but was imprisoned without trial. The department of state learned of Brown's condition through a letter he wrote to an Ohio paper and instituted investigation.

## WESTERN LINES ARE KEPT BUSY

FIFTY ENGINES SENT BY PENNSY TO HELP OUT.

No Prospect of Curtailment of Forces or Business West of Pittsburgh.

Pittsburg, October 22.—Traffic conditions of the Pennsylvania system have undergone a peculiar change in the past few weeks, which indicates that the bulk of business being handled on the company's lines originates and is confined largely to the lines west of this city. It is announced that the Pennsylvania Railroad company, lines east of Pittsburgh, have delivered to the western lines about 50 engines to relieve the crowded conditions in that territory. The conditions of the trade in the east are said to be such that it is possible to transfer the motive power to the western lines. At present the greatest amount of business is being handled between the coal fields and the lakes in the efforts of the Pennsylvania to get as much coal out as possible before the closing of lake navigation.

While the lines east of Pittsburgh are curtailing their working forces and making other retrenchments in the matter of ceasing unnecessary work the conditions west of this city are precisely the opposite. Up to this time the Pennsylvania company has issued no order affecting the various improvements, although it is said that no new work is to be undertaken this year. The company is also working with the same force of men and has but recently increased the working hours in all the shops. These conditions stand out in strong contrast against the present situation in the east. Beyond Altoona the Pennsylvania Railroad company is retrenching in every possible way. It is explained that the principal traffic of the present time is in the soft coal regions where the shipments continue heavy and will be so until the close of navigation.

An official of the Pennsylvania lines west this morning said that so far they have not felt the necessity of reducing the working forces, even to the extent of laying off men classed as extra who were taken on during the rush season. The traffic in both freight and passenger business continues heavy, and there is little credence given to the reports that the same measures will be pursued in the west as have been resorted to by the Pennsylvania Railroad company.

## GOOD LIVING

Quite often results in bad health, because what is termed "good living" is usually the gratification of the palate without reference to the nutrition of the body. When the good liver is a business man and rises from a full meal to plunge at once into work requiring mental effort the result is almost sure to be disastrous, because digestion draws upon the same nervous forces which are employed in thought. In time the stomach becomes diseased, the processes of digestion and nutrition are imperfectly performed and there is a physical breakdown.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It eliminates the effete poisonous matter which originates in the system as a consequence of imperfect digestion. It gives sound health to the whole body.

I wish to say to the world that Dr. Pierce's Golden Medical Discovery has proved a great blessing to me. I write Mrs. Ellen E. Bacon, of Shutesbury, Franklin Co., Mass. "Prior to September, 1897, I had been suffering for many months with indigestion, going through a course of treatment without any real benefit. In September, 1897, I had very sick spells and grew worse, could eat but little. I commenced, in September, 1897, to take Dr. Pierce's medicine. In a short time I could eat and work. I have gained twenty pounds in two months."

Frank, Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

## No Life, No Energy, No Ambition

There are common expressions now-a-days and the finger points that point with unfading accuracy to the nervous system robbed of its vitality by overwork, worry or excesses of some kind.

That any one should allow this condition to go on to complete mental, physical or sexual ruin, is surely most if neglected, a positive crime when a cure is at hand in **BAR-BEN**, Nerve Food—a medicine designed expressly for this condition, a medicine that cures by staying cured by increasing the circulation, strengthening the kidneys, and purifying and enriching the blood and holding up the very essential of life—Nerve Food.

The greatest remedy and the nervous, irritable, weak and trembling feelings disappear. Your sleep will be natural, quiet and restful. You will wake morning feeling strong and vigorous instead of tired. All gloomy depression and sense of misery will fade from your mind; your nerves will become strong and steady and your ambition will be restored and perfect health and strength will take the place of weakness and debility. The testimony of thousands of men and women who have been benefited from this life-giving condition of long worn **BAR-BEN** is sufficient proof of its value.

Send for the tale of this great remedy more effectively than words can portray.

## MORE OIL WELLS ARE BEING DRILLED

OPERATORS HAVE FAITH IN TWO NEARBY FIELDS.

Well on Property of Rev. Joseph Wright, Georgetown, Was Shot Yesterday.

Oil operations in the Smith's Ferry and Georgetown fields are becoming more and more active, the speculators being stimulated to some extent by the recent advance in prices for the product. Georgetown for several years has boasted of several paying wells, but the field has proved a rather uncertain one, quite a number of holes proving to be dusters. This fact has not discouraged the professionals, who have great faith in the field and they are taking up every available acre of ground.

On this side of the river the field is even more uncertain, but a number of good producers have been found. Many people are confident that oil can be found all along the flat territory from Smith's Ferry to the East End. East End parties have been figuring for several months on sinking at least one test well. It will be remembered that a well drilled on the Thompson property nearly a quarter of a century ago produced gas in sufficient quantity to supply the Thompson pottery for a number of years. There was also a good showing of oil in the hole.

Pittsburg drillers have just finished a well on the land of Rev. Joseph Wright, within the corporate limits of Georgetown. There was a sufficient showing of oil to warrant the well being shot and this was done late yesterday afternoon. It is thought that the well will be good for from 5 to 10 barrels a day.

## COUPLE WERE STONED

Henry Twiford And Wife Struck With Rocks By Persons in Ambush.

Henry Twiford has made a complaint to the East End authorities that he and his wife were stoned the other night while walking to their home in Dixonville from the electrical porcelain works. Officer Fisher, who investigated the case, could find no trace of the miscreants, they having had ample opportunity to escape in the time necessary for him to reach the scene.

Twiford claims that both he and his wife were struck by stones thrown from places of concealment. He has a suspicion as to the identity of the guilty party, but not enough evidence to cause his arrest.

## Robert L. Has Lost Form.

Robert L., the fast race horse sold a month or more ago to a Beaver Falls horseman by Will Larkins, has not been making good since the transfer and local people think it is because he has not been given proper training. A few days ago at Erie in a 2:25 pace, Robert L. was third, the best time being near 2:30. He was drawn after the third heat and has not raced since.

## Foot Ball for Saturday.

Foot ball game on East End grid-irons will not be as numerous Saturday as has been anticipated. So far the Royal Tigers have been unable to book a game for that date, and it is not at all likely they will play. The Nonpareils will try conclusions with the Bruno Juniors of Wellsville, at the school grounds, but the Tiger Athletic club has made no announcement of a game.

## Will Visit Allegheny.

Miss Florence Mylar left this morning for Pittsburg, where she will spend a few days with relatives and friends. She will meet the train at Allegheny bearing the members of the Protected Home Circle lodges of the East End, Wellsville and East Liverpool, which are to be the guests Friday night of the Allegheny circle.

## A FINE FACTORY NORTH OF EMPIRE

The New Sewer Pipe Works a Model in Many Respects.

## OUTPUT 150 CARS A DAY

The Firm Has Its Own Clay and Coal Lands and Expects to Utilize Them to the Best Advantage—The Plant Described.

Empire, October 22.—(Special).—One mile north of Empire on the C. & P. railroad, C. M. and H. E. Stratton, under the firm name of the Stratton Fire Clay company, are just completing a mammoth modern equipped sewer pipe factory, which when finished will be possibly the finest of its kind in the Ohio valley.

In making a tour through the factory one gathers data that not only makes a readable article, but one that gives a line of information that is very interesting to the reading public, and carries with it a sense of pride to citizens of the Ohio valley to know that such an immense plant is being erected. The building is a large frame structure 80x150, with an annex 60x70, four stories high, giving a capacity only equalled by one other factory in the valley.

In the way of machinery are found four large pans for grinding the clay. Two are what is known as dry and two wet pans, built by the Stephenson Machine shop of Wellsville. There are also two pipe presses made by the same firm, each of which is so built that a two-inch pipe or a 36-inch pipe can be made, according to the die that is used. The machinery is all driven by a powerful 350 horse-power Buckeye engine built at Salem. To furnish the steam for engine and press and for heating the entire shop for drying the pipe are three 60-inch tubular boilers 16 feet long.

Through the entire building no pains or expense have been spared to make this an up-to-date modern sewer pipe factory. With other conveniences necessary for such a plant, ten 20-foot circular kilns have been completed, ready when the rest of the factory is ready. The capacity of such a plant is almost beyond the comprehension of the ordinary persons. It is expected to put out 150 cars per month, or 1,800 cars per annum, each car being about 25 or 30 tons, or in the neighborhood of 50,000 or 60,000 tons. When in full operation the company will employ about 125 men.

What makes this factory very valuable is the fact that the firm owns about 300 acres of land in connection with it, all of which is underlaid with valuable minerals, such a nine-foot vein of the very best fire clay, from which the works will make pipe. There are also four veins of good coal, running from three feet to five and one-half feet in thickness. With these advantages utilized as is expected, the company will minimize the cost of the manufacture of sewer pipe.

These natural advantages at hand, taken together with the fact that the promoters have had 19 years of experience in the sewer pipe and brick business bespeaks for them in advance success not achieved by the ordinary business firm. Just as soon as they get their factory in operation they will erect quite a number of new houses expressly for their own men, and also a modern electric light plant to light the factory and houses.

H. E. Stratton will be the general superintendent in the mechanical department, with J. S. Casey as assistant superintendent. The office and business departments will be under the supervision of C. M. Stratton, with Prof. Abram Groves, of Empire, as general bookkeeper. Mr. Casey and Mr. Groves will each have a financial interest in the works.

## COUNTY AND NEIGHBORHOOD

Youngstown has a female highwayman who knocked another woman down and robbed her.

John M. Jefferies, of Pittsburg, is to be married November 6 to Miss Eleanor Vernon, a prominent young lady of Salem.

The Sharon, Pa., Textile company, capital \$100,000, has been organized by New York and Sharon business men and a silk mill will be erected. Thomas L. Hopkinson, for 12 years a mail carrier in Massillon, gets six months in jail for robbing the mail. He was about to marry when arrested.

The Beaver Valley Traction company is arranging to extend its lines to Homewood and Ellwood City on the north and Aliquippa park on the south.

Charles Alfred West, of Salem, was granted a divorce from Florence West on grounds of wilful absence. They were married in Salem in November, 1898.

Youngstown council has authorized the issuance of bonds amounting to \$125,000 to install a filtration plant for which the site has already been bought.

Michael Bennett, a six-year-old Salem school boy, had his collar bone broken in a foot ball match. He told nobody and the injury was not discovered until five days later.

As a result of two attempted jail deliveries within 10 days, Sheriff J. M. Thomas has notified the county commissioners that the Youngstown jail is unsafe and that he will not be responsible if prisoners escape.

## Go Prepared.

In preparing for your summer outing a little forethought may save you a good deal of trouble. Mr. John H. Bulger, a dry goods merchant of Belleville, Pa., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with cramp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatally. For sale by Alvin H. Bulger.

regarded by the country at large as an index of Republican strength in 1904. Let the party in this state prove that it is mighty and true to its traditions and sentiments.

Harry A. Garfield has been elected professor of politics at Princeton. He is not the only Ohio man who might with propriety claim the title.

King Edward refuses to state whether he is for protection or free trade, and yet he is not a candidate for a second term.

East Liverpool's Republican campaign manager comes late, but it will not be less enthusiastic on that account.

Carrie Nation and Prophet Dowie can't agree, which is not strange. They are rivals in the art of humbuggery.

The completeness of the Republican victory depends upon the extent to which the Republican vote is got out.

The United States loses two islands by the Alaskan boundary settlement, but still has plenty left.

Canada, in a fit of childish anger, threatens to play no longer in England's back yard.

Sam Jones and Bryan still stick to Johnson. They invariably champion a losing cause.

Dowie should hasten back to Chicago, where humbuggery thrives.

OBITUARY

Death of An Infant.

The three months old daughter of Mr. and Mrs. Oliver Howell, of the Klondike, East End, died at 2 o'clock this morning from a complication of troubles. The interment will be made in Riverview cemetery tomorrow afternoon.

FRIENDS AND VISITORS

James W. Harris was in the city yesterday from Alliance on business.

George W. McConnell, of Carrollton, is the guest of relatives in this city.

Mrs. L. F. Maple and Mrs. George Ward, of Chester, are visiting at Hammondsville.

John W. Howard has returned to his home at Alliance after a visit with relatives here.

Miss Emma McKenna has returned from Pittsburgh, where she has been visiting friends.

Mr. and Mrs. Dr. W. R. Clark left this morning for Columbus, where they will spend several days.

Mrs. Ellen Morgan, of Johnstown, Pa., is the guest of her sister, Mrs. M. Powell, of Gardendale.

John Hohmann, the Market street wholesale liquor man, was a business visitor at Altoona yesterday.

J. Q. Fowler, of the West End, arrived home from Wellsburg this week and is spending a few days in Pittsburgh.

John Pfouts has removed from Wilnot to this city and will live at the home of his son, Dr. A. C. Pfouts, of Fourth street.

F. A. Midney, who has been in the city for several days on business, left this morning for Steubenville, Wheeling and Washington, Pa.

Mr. Robert J. Boyce, of the East End, who had the misfortune to fall and break his collar bone, is improving as rapidly as possible.

Rowe Patterson, who has been the guest of Mr. and Mrs. James Johnson and family for several days, has returned to his home at Pompeii, Mich.

Hugh Hamill, ware house boss and shipping clerk at the D. E. McNicol pottery, went to Pittsburgh this morning to have his eyes treated by a specialist.

Mrs. Dr. B. R. Hamilton, of Nauvoo, Ill., who has been the guest of her son, Dr. W. W. Hamilton, of this city,

for some time, returned to her home this morning.

Mr. and Mrs. Robert Stevenson and two children, of Sheridan avenue, were passengers on the morning train for Cleveland, where they will be the guests of relatives for a week.

Rev. Edwin Weary will leave on Friday morning for Washington, D. C., to attend a missionary council.

Rev. Mr. Irvine, of Wellsburg, W. Va., will have charge of the services at St. Stephen's church on Sunday.

Samuel Turner, an engraver, was taken suddenly ill in the Bradshaw addition last evening. The patrol wagon was called and took him to his boarding place, Mrs. Mitcheson's, Sixth street, where he soon recovered.

Miss Martha Thomas, teacher at the Pleasant Heights school, is off duty owing to illness. Her place is being filled by Miss Mabel Nellis, one of the four other teachers who have been on duty there during the past few weeks.

Dr. A. C. Pfouts has returned home after a month's absence from the city. His brother, Dr. O. C. Pfouts, who has been assisting him for several weeks, returned to the Cincinnati College of Dental Surgery, where he will graduate next spring.

J. H. Harris, who entered a hospital in Pittsburgh for treatment of his eyes, underwent an operation, which has resulted very satisfactorily. By the removal of a growth over one eye from which he could not see, it has been ascertained that the sight has not been impaired, and that he will have the use of his eye in a short time. Later he will have an operation performed on the other eye.

### COUNTRESS FOUND SCORES OF DUPES

A Woman Schemer Found the People of Wheeling Decidedly Easy.

VISIONS OF BIG WEALTH

Were Seen By Her and Confiding Ones Turned Over Their Cash Without Hesitation—She Is Gone and They Are "Left."

Wheeling, October 22.—Although the Countess De Florenze, whose name has gone over this section of the country as a palmist and clairvoyant, has been gone from this city for about three weeks, developments have just begun to come to light showing the monstrous frauds she perpetrated on the credulous people of Wheeling and vicinity.

A reporter called at the home of Rev. L. M. McDermott on Sixteenth street, to glean the new facts in the case, and the story that was told concerning her residence in this city is very interesting.

"Yes, the countess boarded at my house," said Rev. Mr. McDermott. At the time of her coming and during her stay here I never learned of the fraudulent methods she was employing and it was not until after her leaving and the duped ones began to wait their losses that I found out the ruses she had been using to extort money from Wheelingites and other people living near here.

"Although I don't know for a certainty, I believe a Mr. Hughes, who is a prosperous farmer living back of this city, is the heaviest loser among those who are clamoring for the proceeds of their investments with the countess. Mr. Hughes denies that he gave her any money, but on his learning that she had gone he seemed very much excited. A great many were 'roped in' by her alluring visions of a Colorado gold mine that she so vividly saw in her dreams.

"At a place where a volcano had stood in prehistoric times the lava had run down the mountain side. Beneath this flow of malpais there is a very rich vein of gold. A small stream flowing over it had naturally washed out the dirt, letting the heavier particles of gold sink to the bed of the stream. A gold mining company (she gave the name) has been formed and chartered, and stock has been taken out. Now in 60 days a rich strike will be made and those buying stock now will be millionaires before a few months have passed. Many local people were caught in this company and it is now known that an out-of-town confederate had been working in association with the countess and letters that would be sent to companies or individuals to add practicability to her plans went to one who was working in collaboration with her."

There is quite a little romance connected with her stay in this city. During her residence at the McDermott home she had by her magnetic influence, greatly attached Irwin McDermott to her, and so great was the feeling between the two that the countess had acquiesced in the young man's wish that she marry him. The countess had planned that she go to Denver when he should follow and become united in marriage to her. So far he has received no word, and it is the belief of his friends that it was only a scheme to get money from him.

Another scheme that the countess worked was as follows:

She would advise her auditors to invest in a certain kind of stock, saying that in a week it would rise to five times its normal range in value. One young man who wished to invest, but who had not the money told the countess of his inability to secure the coin, so the wily woman offered to loan him \$100. She then wrote out a check calling for that amount and forwarded it, buying \$100 worth of stock. In a few days she received her certificate, and in less than a week a letter came from

the company offering her \$500 for the stock. Of course a confederate had been working in connection with her schemes, and it was to him that the letter had been directed instead of any legitimate business concern.

A lady from McMechen had invested \$25 with the countess with the understanding that she was to invest \$475 more as soon as she could get it. In a few days she was again on the way to the office of the countess with \$475 in bills with her. Some of her friends learning of her purpose advised her differently and formulated a plan by which she could get back the \$25. The lady was finally persuaded that the countess was a fraud and agreed to the plan of her friends. She went to the countess and told her that she could not raise the other \$475 without the aid of an agent. The countess, having a keen eye, instantly shelved out the \$25.

A Republican administration in Ohio has cut the state taxes in half since 1891, besides paying off the state debt and expending millions in bettering state institutions. Tom Johnson, the boasted tax reformer, has increased the taxes of Cleveland during his administration. Who wants him to direct state affairs?

Railroad earnings for the first two weeks in October were 6.2 per cent in excess of those for the same period of 1902, and 12.7 per cent in excess of those for the like period of 1901. This does not indicate that Calamity Clarke was right when he asserted that the country was going to the dogs.

The town pump will be put in working order, thanks to Mayor Weaver. Tying it up with red tape meets neither his approval nor that of the people.

Men whose principal business is stock speculation could not be expected to run a bank properly. They can easily run it out of existence, though.

Tuscarawas county people have hopes of getting out of the Democratic thicket this year. It is about time.

Another scheme that the countess worked was as follows:

She would advise her auditors to invest in a certain kind of stock, saying that in a week it would rise to five times its normal range in value. One young man who wished to invest, but who had not the money told the countess of his inability to secure the coin, so the wily woman offered to loan him \$100. She then wrote out a check calling for that amount and forwarded it, buying \$100 worth of stock. In a few days she received her certificate, and in less than a week a letter came from

the company offering her \$500 for the stock. Of course a confederate had been working in connection with her schemes, and it was to him that the letter had been directed instead of any legitimate business concern.

A lady from McMechen had invested \$25 with the countess with the understanding that she was to invest \$475 more as soon as she could get it. In a few days she was again on the way to the office of the countess with \$475 in bills with her. Some of her friends learning of her purpose advised her differently and formulated a plan by which she could get back the \$25. The lady was finally persuaded that the countess was a fraud and agreed to the plan of her friends. She went to the countess and told her that she could not raise the other \$475 without the aid of an agent. The countess, having a keen eye, instantly shelled out the \$25.

A Republican administration in Ohio

has cut the state taxes in half since

1891, besides paying off the state debt

and expending millions in bettering

state institutions. Tom Johnson, the

boasted tax reformer, has increased

the taxes of Cleveland during his

administration. Who wants him to di-

rect state affairs?

Railroad earnings for the first two

weeks in October were 6.2 per cent in

excess of those for the same period

of 1902, and 12.7 per cent in excess

of those for the like period of 1901.

This does not indicate that Calamity

Clarke was right when he asserted

that the country was going to the

dogs.

The town pump will be put in work-

ing order, thanks to Mayor Weaver.

Tying it up with red tape meets nei-

ther his approval nor that of the peo-

ple.

Men whose principal business is

stock speculation could not be expected

to run a bank properly. They can

easily run it out of existence, though.

Tuscarawas county people have

hopes of getting out of the Democrat-

ic thicket this year. It is about time.

The Ohio election of 1903 will be

regarded by the country at large as

an index of Republican strength in

1904. Let the party in this state prove

that it is mighty and true to its tra-

ditions and sentiments.

Harry A. Garfield has been elected

professor of politics at Princeton. He

is not the only Ohio man who might

with propriety claim the title.

King Edward refuses to state whether

he is for protection or free trade,

and yet he is not a candidate for a

second term.

East Liverpool's Republican cam-

paign meeting comes late, but it will

not be less enthusiastic on that ac-

count.

Carrie Nation and Prophet Dowle

can't agree, which is not strange.

They are rivals in the art of humbug-

gery.

The completeness of the Republi-

can victory depends upon the extent

to which the Republican vote is got

out.

The United States loses two islands

by the Alaskan boundary settlement,

but still has plenty left.

Canada, in a fit of childish anger,

threatens to play no longer in Eng-

land's back yard.

Sam Jones and Bryan still stick to

Johnson. They invariably champion

a losing cause.

Dowie should hasten back to Chi-

cago, where humbuggery thrives.

mot to this city and will live at the

home of his son, Dr. A. C. Pfouts, of

Fourth street.

F. A. Midney, who has been in the

city for several days on business, left

this morning for Steubenville, Wheel-

ing and Washington, Pa.

Mr. Robert J. Boyce, of the East

End, who had the misfortune to fall

and break his collar bone, is improv-

ing as rapidly as possible.

Rowe Patterson, who has been the

guest of Mr. and Mrs. James Johnson

and family for several days, has re-

turned to his home at Pompeii, Mich.

Hugh Hamill, ware house boss and

shipping clerk at the D. E. McNicol

pottery, went to Pittsburgh this morn-

ing to have his eyes treated by a spe-

cialist.

Miss Martha Thomas, teacher at the

pleasant Heights school, is off duty

owing to illness. Her place is being

filled by Miss Mabel Nellis, one of the

four other teachers who have been on

duty there during the past few weeks.

Dr. A. C. Pfouts has returned home

after a month's absence from the city.

His brother, Dr. O. C. Pfouts, who has

been assisting him for several weeks,

returned to the Cincinnati College of

Dental Surgery, where he will gradu-

ate next spring.

J. H. Harris, who entered a hospital

in Pittsburgh for treatment of his

eyes, underwent an operation, which

has resulted very satisfactorily. The

removal of a growth over one

eye from which he could not see, it

has been ascertained that the sight

has not been impaired, and that he

will have the use of his eye in a short

time. Later he will have an opera-

tion performed on the other eye.

## WELLSVILLE

## DRINK CRAZED MINOR

Arrested at the Instance of His Father  
And Brought Before  
the Mayor.

The complaint of Henry Chapman, who resides near Thirteenth street in the East End, and who is employed on the railroad as a brakeman, was placed under arrest Tuesday afternoon by Police Houser and a charge was entered against him of disorderly conduct and raising a disturbance.

Chapman, it seems, had secured a new drink earlier in the afternoon and went home for the purpose of entering a rough house. He kept up the disturbance as long as his father could stand it and then an officer was sent to arrest him.

Chapman, a minor, was brought before the mayor last evening and admitted the charges. When questioned as to who sold him the liquor, he described the bar tender, but when asked who saw him buy, Chapman was mum as a Sphinx of Egypt. The mayor did not impose a fine, but released Chapman, who will stand committed until the case can be further investigated, when he will again be taken into custody.

For a Time, Four Old Offenders Having Been Taken to the Workhouse.

Mattie Brown, an East Liverpool woman who was arrested in a shanty near here last week; Alfred Brown, a well known Twelfth street character; Colonel Joseph McKee, of the Twelfth street district; and William Smith, from the Twelfth street district in the West End, were all taken to Canton on the morning train today by City Building Officer William Elliott and Chief of Houser, who will take them to the workhouse, where they will be allowed to work out fines of \$25 and \$50 which have been imposed in each case by Mayor Fogo. They are all old offenders.

## BRAKEMAN HURT

C. Wells, a brakeman employed on one of the switching crews on the C. & P., was severely injured at East Liverpool at 7 o'clock last evening while at work with his crew near the

## SIMPLY BREATHE IT

Few Minutes' Use of Hyomei Four Times a Day Cures Catarrh.

The pleasantest, most convenient and the only scientific method for the treatment and cure of catarrh is Hyomei. Simply put 20 drops of Hyomei in the inhaler that comes with every package and then breathe it for a few minutes four times a day. It seems remarkable that so simple a way of treating catarrh will effect a cure, but the most important discoveries of science have always been the simplest. By breathing Hyomei in this way every particle of air that enters the air passages of the throat of head and goes into the lungs is charged with a healing balsam that kills the germs and bacilli of catarrh and soothes and allays all irritation. The first day's use of Hyomei will give a decided improvement and in a short time there will be no further trouble from catarrh. Its action is rapid and lasting.

You take no risk in buying Hyomei. Complete outfit costs \$1, and if after you can say that it has not helped you, you will receive your money back. What other treatment for catarrh is sold under a guarantee like this?

entrance to the Horn switch. Wells lost his hold on a car which was being pushed at a good speed and he fell beside the track in such a manner that his body was badly scraped by the side of the engine as it passed over him.

His cries for help were heard by the engineer and other members of the crew at once ran to his assistance. He was at once brought to his home in this city, which is in the second story of the new Porter building at Main and Eighteenth streets and Dr. Noble, the railroad physician, was called. It was found that Wells' injuries, while severe, were not serious and he will recover in a couple of weeks.

## An Interesting Lecture.

Rev. Philip Andreen, the well known pastor of one of the Swedish churches in Pittsburgh, who has preached to Swedish congregations in this city on one or two previous occasions, delivered a lecture last evening at the Third street Bethel Mission to a large and appreciative audience. Rev. Mr. Andreen has but recently returned from an extended tour through Europe and his talk last evening was on this subject and along the lines of worship employed in the mother country. The lecture was a very interesting one.

## Funeral of a Child.

The six-year-old son of Mr. and Mrs. William Edwards, died at their home in Amsterdam, Jefferson county, yesterday afternoon after a short illness. The parents and a little sister of the deceased survive. The body will be brought to Irondale and thence to this city Friday morning and at 11 o'clock a short funeral service will be held at Spring Hill cemetery, where interment will be made.

## BANKERS' CONVENTION OPENED.

Discuss Fidelity Insurance Business for the Bonding of Employees.

San Francisco, Oct. 22.—President Caldwell Hardy called to order in the California theater the twenty-ninth annual convention of the American Bankers' association.

The opening session was enlivened by a very spirited controversy on the question of the association branching out into the fidelity insurance business for the purpose of bonding employees, and the issue was made all the more interesting by the presence of divergent reports on the subject, the executive council reporting against adoption of the proposed plan, and the fidelity insurance committee advocating the early sanctioning of such a scheme.

## Elected Professor of Politics.

Princeton, N. J., Oct. 22.—The board of trustees of the university met for the first time this fall. Henry A. Garfield, of Cleveland, son of the late President Garfield, was elected professor of politics to fill the chair vacated by Prof. John H. Finley. The resignation of Prof. J. Mark Baldwin was accepted. The honorary degree of master of arts was conferred on James H. Hyde, of New York, first vice president of the Equitable Life Assurance society.

## Snake Charming Squeezed to Death.

Berlin, Oct. 22.—A young woman was squeezed to death by a boa-constrictor at Voelkingen, Prussia, while giving a performance in a menagerie. The spectators thought at first that her screams and frantic struggles, as the snake tightened its coils, were part of the show and applauded the realism of her acting. The attendant, however, saw the woman's danger, ran in, beat the snake and slashed it with knives. The woman was dead when released.

## Suicided After Killing Sweetheart.

Stephen, Minn., Oct. 22.—The dead bodies of Albert Jensen, aged 30 years, and Josie Johnson, aged 19, were found in Jensen's house on his farm near the village of Roseau. It was evident that Jensen killed the girl, who was his sweetheart, with the butt of a revolver and then shot himself.

## FIRM SELLS OUT

Allison & Rogers' Meat Shop Has Been Bought By H. S. Plankinton.

One of the most important business transactions consummated in this community for some time was closed up yesterday afternoon, when H. S. Plankinton bought the Allison & Rogers meat market, Sixth and Carolina avenue, and secured a lease upon the building for an indefinite period.

The firm of Allison & Rogers included Robert E. Allison, William Allison and Howard Rogers, and the success of the firm has been phenomenal. Each member of the company has a distinct individuality, and the large patronage was secured and held through the instrumentality of good goods, fair dealing and a willingness at all times to meet the needs of the public.

Robert Allison has been compelled to give up the business in town in order to look after the duties on his farm, southeast of town. Mr. Allison is one of the direct heirs of the estate of the late C. B. Allison, and since it has been settled up and each of the beneficiaries have received their share, Mr. Allison's responsibilities have been increased ten fold.

It is not known what Mr. Rogers will do, but it is probable he will return to the farm.

William Allison may remain with the new firm.

## NEW PROCESS BRICK

Southside Inventor Making Experiments That May Lead to Fortune.

Frank Croft, in company with several other enterprising operatives employed at one of the Southside plants, is experimenting with a new thing in brick. A small kiln has been constructed in the yard of one of the men, and here the experiments have been made.

It is the aim of those in charge to turn out a brick that will stand the weather in good order and at the same time outdo anything heretofore attempted in the matter of appearance. The glaze used to the present is of a superior quality and gives the tile the appearance of marble.

An experimental kiln was drawn this morning and was most successful from every standpoint. The details had been carefully looked after, and

Purchased By Archie Freshwater from the Southside Land Company.

The largest real estate deal put through in Chester for months was consummated yesterday when Archie Freshwater is said to have purchased from the Southside Land company lots, the aggregate cost of which was over \$5,000.

Mr. Freshwater has been contemplating removal to Chester for some time, and a few days ago it was announced that he had made a definite decision in the matter. It is now thought he means to concentrate his operations to Chester and vicinity, and with that object in view has made the large investment mentioned. The land reported to have been bought by Mr. Freshwater lies south of Indiana avenue and is regarded as one of the

DRINK CRAZED MINOR

Arrested at the instance of His Father And Brought Before the Mayor.

The complaint of Henry Chapman, son of Walter Chapman, who resides near Thirteenth street in the West End, and who is employed on the railroad as a brakeman, was placed under arrest Tuesday afternoon by a Police Houser and a charge was entered against him of disorderly conduct and raising a disturbance.

Chapman, it seems, had secured a car earlier in the afternoon and went home for the purpose of entering a rough house. He kept up the car as long as his father could stand and then an officer was sent to the Horn switch. Wells lost his hold on a car which was being pushed at a good speed and he fell beside the track in such a manner that his body was badly scraped by the side of the engine as it passed over him.

His cries for help were heard by the engineer and other members of the crew at once ran to his assistance. He was at once brought to his home in this city, which is in the second story of the new Porter building at Main and Eighteenth streets and Dr. Noble, the railroad physician, was called. It was found that Wells' injuries, while severe, were not serious and he will recover in a couple of weeks.

BANKERS' CONVENTION OPENED.

Discuss Fidelity Insurance Business for the Bonding of Employees.

San Francisco, Oct. 22.—President Caldwell Hardy called to order in the California theater the twenty-ninth annual convention of the American Bankers' association.

The opening session was enlivened by a very spirited controversy on the question of the association branching out into the fidelity insurance business for the purpose of bonding employees, and the issue was made all the more interesting by the presence of divergent reports on the subject, the executive council reporting against adoption of the proposed plan, and the fidelity insurance committee advocating the early sanctioning of such a scheme.

FIRM SELLS OUT

Allison & Rogers' Meat Shop Has Been Bought By H. S. Plankinton.

One of the most important business transactions consummated in this community for some time was closed up yesterday afternoon, when H. S. Plankinton bought the Allison & Rogers meat market, Sixth and Carolina avenue, and secured a lease upon the building for an indefinite period.

The firm of Allison & Rogers included Robert E. Allison, William Allison and Howard Rogers, and the success of the firm has been phenomenal. Each member of the company has a distinct individuality, and the large patronage was secured and held through the instrumentality of good goods, fair dealing and a willingness at all times to meet the needs of the public.

Robert Allison has been compelled to give up the business in town in order to look after the duties on his farm, southeast of town. Mr. Allison is one of the direct heirs of the estate of the late C. B. Allison, and since it has been settled up and each of the beneficiaries have received their share, Mr. Allison's responsibilities have been increased ten fold.

It is not known what Mr. Rogers will do, but it is probable he will return to the farm.

William Allison may remain with the new firm.

NEW PROCESS BRICK

Southside Inventor Making Experiments That May Lead to Fortune.

Frank Croft, in company with several other enterprising operatives employed at one of the Southside plants, is experimenting with a new thing in brick. A small kiln has been constructed in the yard of one of the men, and here the experiments have been made.

It is the aim of those in charge to turn out a brick that will stand the weather in good order and at the same time outdo anything heretofore attempted in the matter of appearance. The glaze used to the present is of a superior quality and gives the tile the appearance of marble.

An experimental kiln was drawn this morning and was most successful from every standpoint. The details had been carefully looked after, and

Allison & Rogers' Meat Shop Has Been Bought By H. S. Plankinton.

One of the most important business transactions consummated in this community for some time was closed yesterday afternoon, when H. S. Plankinton bought the Allison & Rogers meat market, Sixth and Carolina avenue, and secured a lease upon the building for an indefinite period.

The firm of Allison & Rogers included Robert E. Allison, William Allison and Howard Rogers, and the success of the firm has been phenomenal. Each member of the company has a distinct individuality, and the large patronage was secured and held through the instrumentality of good goods, fair dealing and a willingness at all times to meet the needs of the public.

Robert Allison has been compelled to give up the business in town in order to look after the duties on his farm, southeast of town. Mr. Allison is one of the direct heirs of the estate of the late C. B. Allison, and since it has been settled up and each of the beneficiaries have received their share, Mr. Allison's responsibilities have been increased ten fold.

It is not known what Mr. Rogers will do, but it is probable he will return to the farm.

William Allison may remain with the new firm.

## NEW PROCESS BRICK

Southside Inventor Making Experiments That May Lead to Fortune.

Frank Croft, in company with several other enterprising operatives employed at one of the Southside plants, is experimenting with a new thing in brick. A small kiln has been constructed in the yard of one of the men, and here the experiments have been made.

It is the aim of those in charge to turn out a brick that will stand the weather in good order and at the same time outdo anything heretofore attempted in the matter of appearance. The glaze used to the present is of a superior quality and gives the tile the appearance of marble.

An experimental kiln was drawn this morning and was most successful from every standpoint. The details had been carefully looked after, and

## \$5,000 WORTH OF LOTS.

Purchased By Archie Freshwater from the Southside Land Company.

The largest real estate deal put through in Chester for months was consummated yesterday when Archie Freshwater is said to have purchased from the Southside Land company lots, the aggregate cost of which was over \$5,000.

Mr. Freshwater has been contemplating removal to Chester for some time, and a few days ago it was announced that he had made a definite decision in the matter. It is now thought he means to concentrate his operations to Chester and vicinity, and with that object in view has made the large investment mentioned. The land reported to have been bought by Mr. Freshwater lies south of Indiana avenue and is regarded as one of the

**BEAVER HIGH SCHOOL HERE NEXT WEEK**

Captain Geon, of Local High School Eleven, Has Arranged a Game for Friday.

Captain Geon, of the high school team, has received a letter from J. W. Springer, principal of the Beaver high school, asking for a game of football with the local eleven for Friday, October 30. Captain Geon has forwarded a favorable reply and the contest will be played at West End park on the day named. Owing to the fact that the Rovers, who have a lease on the park, have games scheduled for every Saturday during the season, the high school team will be compelled to play its home games on Fridays. This will prove quite an inconvenience to the visiting teams, making it necessary for the players to lose half a day from school.

It is evident from the letter from Superintendent Springer that the Beaver eleven will contain none but bona fide members of the high school. The names of the players, as given below, accompany the letter, and the statement is made that all are regular attendants at school. In some instances where athletic sports are not directly under the control of the instructors, "ringers" are used. The local team proposes to deal fairly with the opposing team shows the same disposition and the Beaver boys can count upon it that they will be contesting with a team composed strictly of high school boys.

The lineups of the two teams will be as follows:

E. L. H. S.—Evans, right end; Anderson, right tackle; D. Smith, right guard; Winn, center; Stevenson or Ryan, left guard; Viney, left tackle; J. Geon, left end; Smith, right half; Gaston, left half; W. Geon, quarterback and Mountford, full back.

B. H. S.—Marks, right end; Hine-man or C. Morrow, right tackle; Wilson, right guard; Stowe or Russell, center; O. Campbell, left guard; McClure, left tackle; C. Campbell, left end; S. Morrow, right half; Jones, left half; Linnenbrink, quarterback; McBride, full back.

**ROVERS AND BRILLIANTS TO PLAY SATURDAY**

Step Taken That Insures That the Game Will Not Be Canceled.

The Rovers have sent railroad tickets to the Brilliant football eleven for the game at West End park Saturday and this should insure that the game will not be canceled at the last minute. Manager Hughes and the Rovers hope that the long season of canceled games is at an end.

Word has been received from the manager of the Brilliant team that he will have his players here without fail in time for the kick-off at 4 o'clock. Vance, the big full back of the Empire team, will play that position for the Brillants. He weighs over 200 pounds and is said to be a first class man. In the Empire game he indulged in a great deal of slugging, but he will get his bumps if he tries it here.

**LIVELY POOL CONTEST**

A Cleveland Professional Defeats a Wellsville Amateur By a Large Score.

A grand pool contest was held last evening at the Brunswick billiard parlors in Wellsville in which Henry P. Stofft, a professional champion of Cleveland, defeated Clyde Cummings, a local man, by a score of 125 balls to 59 balls.

The contest was quite an exciting one from start to finish and early in the game it was believed that Cummings would be able to hold his own against his professional opponent, but Stofft's steady work proved too much for Cummings and he was badly defeated after putting up a hard contest. Carl Cope was the referee of the contest.

The billiard hall was so crowded that many had to stand on nearby tables and chairs in order to gain a view of the table which was placed in the center of the room.

The official score of the contest follows:

Henry P. Stofft—14 frames; 3 fouls; 125 points.

Clyde Cummings—14 frames; 5 fouls; 59 points.

Mr. Stofft is considered one of the best pool champions in this country today, although he does not hold the world's championship. Among the world's champions he has defeated DeOro, the famous Cuban player, W. H. Clearwater, of Greensburg, Pa., who at one time held the world's championship. Eby, the famous cowboy player who hails from the west, Keough, and Powers, and many others of equal fame. Mr. Stofft defeated Clearwater at his own home in a

**Association Football.**

The first association football game of the season will be played at Rock Springs park, Saturday, October 31, the Homer Laughlin club contesting with the fast Bulger, Pa., team. The announcement will be well received by the lovers of the game, and there are many of them in this city. The Homer Laughlin team has several of the Rover players and is considered one of the fastest teams in the country. The Bulger team recently played the McDonald team a 1 to 1 game. The kick-off will be promptly at 4 o'clock and the usual admission of 25 cents will be charged.

Mr. William Anderson, of 305 Lisbon street, says: "During the civil war I enlisted and served three years in the Forty-second Infantry. From the exposure during the war I attribute the severe aching and weakness in the loins and muscular rheumatism of recent years which all seemed to center in my kidneys. In the morning when first getting up I was very dizzy until I had moved around for a time and my nervous system became affected, causing fluttering and fullness around the heart. Seeing an advertisement in the paper I got Doan's Kidney Pills at the W. & W. Pharmacy and took them. A few doses gave me relief. The improvement was gradual and continued as the medicine got thoroughly into my system. I firmly believe that Doan's Kidney Pills will in every case as they did in mine, prove the justness of the claims made for them."

**DIVORCE WAS REFUSED A SALEM WOMAN**

Judge Hole Held That the Evidence Adduced Was Not Sufficient.

Lisbon, October 22.—(Special.)—Judge Hole refused to grant a divorce in the case of Amelia Knopp, of Salem, versus Abraham Knopp, which was heard in court here yesterday afternoon, the court holding that the evidence adduced was not sufficient grounds. The petition was dismissed at the plaintiff's cost.

In her petition Mrs. Knopp said she was married at Salem in September, 1899, and that they have had no children. She alleged that for more than three years her husband has failed to provide for her properly, although fully able to do so. On November 25, 1901 she says, he kicked her and otherwise abused her and finally in August, 1902, abandoned her. The court

held that the fact that she had lived with the defendant so long after the instance of cruelty cited showed a condonation of the offense and that therefore this could not be regarded as a legitimate ground for divorce. The plaintiff also petitioned for the restoration of her maiden name.

**NOLLIED THE CHARGE AGAINST C. B. BOWERS**

Prosecutor Brookes Said It Was Useless to Try to Convict.

Lisbon, October 22.—(Special.)—At the conclusion of the testimony in the case of Ohio versus Calvin B. Bowers, an East Liverpool saloon keeper, charged with selling to a minor, which came on for trial yesterday afternoon, Prosecutor Brookes refused to allow the case to go to the jury and nollied the charges.

Mr. Brookes made a fiery statement to the court in which he said the suspicious character of the testimony adduced by the defense reflected on the credibility of its witnesses and at the same time made it useless to try to secure a conviction.

The defendant and two or three other witnesses testified that Percy Glass, the minor to whom Bowers was said to have sold, entered the saloon and tried to buy drink. In reply to Bowers' query he said he was 18 and Bowers refused to sell to him. Later the proprietor ordered the youth from his place and as Glass went out he was represented to have said he would get even.

**LOWER COURT UPHELD**

Judge Hole Sustains a Probate Court Decision in a Road Case.

Lisbon, October 22.—(Special.)—Judge Hole had intended giving opinions this morning in a number of cases submitted, but on account of the absence of counsel in certain cases handed down but one opinion.

In the case of James Fallow and Abraham Haessly vs. John Matthews and others, appealed from probate court, the decision of the lower court was affirmed. The case related to the vacation of a road near Millport, Franklin township, and the plaintiffs in error held that county commissioners who ordered the road vacated in 1898, had lost jurisdiction by deferring action at a meeting in December, 1895, adjourning to a time not specified.

The court held that there was no substantial error in the proceedings of the commissioners.

Edward A. Bacon of Greenwich village, Mass., P. O. Box writes Aug. 3, 1903: "I can truly say that Kidney-Wort Tablets have done more good than all the doctor's medicine I have taken. I noticed a decided change for the better before I had taken the first bottle of the Tablets. I was suffering from kidney disease of the worst kind, but Kidney-Wort Tablets have stopped all inflammation and entirely cured me."

If your doctor's prescription does not fit your case, or if you have been foolish enough to take liquid kidney remedies that invariably contain dangerous alcohol—stop all other medicine and Kidney-Wort Tablets will cure you. It has cured thousands who were making no headway under their physician's care, because their doctor's prescription did not exactly hit their case.

## REALM OF SPORTS

### BEAVER HIGH SCHOOL HERE NEXT WEEK

Captain Geon, of Local High School Eleven, Has Arranged a Game for Friday.

Captain Geon, of the high school team, has received a letter from J. W. Springer, principal of the Beaver high school, asking for a game of football with the local eleven for Friday, October 30. Captain Geon has forwarded a favorable reply and the contest will be played at West End park on the day named. Owing to the fact that the Rovers, who have a lease on the park, have games scheduled for every Saturday during the season, the high school team will be compelled to play its home games on Fridays. This will prove quite an inconvenience to the visiting teams, making it necessary for the players to lose half a day from school.

It is evident from the letter from Superintendent Springer that the Beaver eleven will contain none but bona fide members of the high school. The names of the players, as given below, accompany the letter, and the statement is made that all are regular attendants at school. In some instances where athletic sports are not directly under the control of the instructors, "ringers" are used. The local team proposes to deal fairly with the opposing team should the same disposition and the Beaver boys can count upon it that they will be contesting with a team composed strictly of high school boys.

The lineups of the two teams will be as follows:

E. L. H. S.—Evans, right end; Anderson, right tackle; D. Smith, right guard; Winn, center; Stevenson or Ryan, left guard; Viney, left tackle; I. Geon, left end; Smith, right half; Gaston, left half; W. Geon, quarterback and Mountford, full back.

B. H. S.—Marks, right end; Hine-man or C. Morrow, right tackle; Wilson, right guard; Stowe or Russell, center; O. Campbell, left guard; McClure, left tackle; C. Campbell, left end; S. Morrow, right half; Jones, left half; Linnenbrink, quarterback; McBride, full back.

## ROVERS AND BRILLIANTS TO PLAY SATURDAY

Step Taken That Insures That the Game Will Not Be Canceled.

The Rovers have sent railroad tickets to the Brilliant football eleven for the game at West End park Saturday and this should insure that the game will not be canceled at the last minute. Manager Hughes and the Rovers hope that the long season of canceled games is at an end.

Word has been received from the manager of the Brilliant team that he will have his players here without fail in time for the kick-off at 4 o'clock. Vance, the big full back of the Empire team, will play that position for the Brilliants. He weighs over 200 pounds and is said to be a first class man. In the Empire game he indulged in a great deal of slugging, but he will get his bumps if he tries it here.

## LIVELY POOL CONTEST

A Cleveland Professional Defeats a Wellsville Amateur By a Large Score.

A grand pool contest was held last evening at the Brunswick billiard parlors in Wellsville in which Henry P. Stofft, a professional champion of Cleveland, defeated Clyde Cummings, a local man, by a score of 125 balls to 59 balls.

The contest was quite an exciting one from start to finish and early in the game it was believed that Cummings would be able to hold his own against his professional opponent, but Stofft's steady work proved too much for Cummings and he was badly defeated after putting up a hard contest. Carl Cope was the referee of the contest.

The billiard hall was so crowded that many had to stand on nearby tables and chairs in order to gain a view of the table which was placed in the center of the room.

The official score of the contest follows:

Henry P. Stofft—14 frames; 3 fouls; 125 points.

Clyde Cummings—14 frames; 5 fouls; 59 points.

Mr. Stofft is considered one of the best pool champions in this country today, although he does not hold the world's championship. Among the world's champions he has defeated DeOro, the famous Cuban player, W. H. Clearwater, of Greensburg, Pa., who at one time held the world's championship. Eby, the famous cowboy player who hails from the west, Keough, and Powers, and many others of equal fame. Mr. Stofft defeated Clearwater at his own home in a

## Association Football.

The first association football game of the season will be played at Rock Springs park, Saturday, October 31, the Homer Laughlin club contesting with the fast Bulger, Pa., team. The announcement will be well received by the lovers of the game, and there are many of them in this city. The Homer Laughlin team has several of the Rover players and is considered one of the fastest teams in the country. The Bulger team recently played the McDonald team a 1 to 1 game. The kick-off will be promptly at 4 o'clock and the usual admission of 25 cents will be charged.

## SPORTING MISCELLANY.

Fencing is to be one of Harvard's chief sports this winter.

## BACK GIVES OUT

Plenty of East Liverpool Readers Have This Experience.

You tax the kidneys, overwork them. They can't keep up the continued strain.

The back gives out—it aches and pains. Urinary troubles set in.

Don't wait longer—take Doan's Kidney Pills.

East Liverpool people tell you how they act.

Mr. William Anderson, of 305 Lisbon street, says: "During the civil war I enlisted and served three years in the Forty-second Infantry. From the exposure during the war I attribute the severe aching and weakness in the loins and muscular rheumatism of recent years which all seemed to center in my kidneys. In the morning when first getting up I was very dizzy until I had moved around for a time and my nervous system became affected, causing fluttering and fullness around the heart. Seeing an advertisement in the paper I got Doan's Kidney Pills and took them. A few doses gave me relief. The improvement was gradual and continued as the medicine got thoroughly into my system. I firmly believe that Doan's Kidney Pills will in every case as they did in mine, prove the justness of the claims made for them."

For sale by all dealers. Price, 50 cents a box. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States.

## DIVORCE WAS REFUSED A SALEM WOMAN

Judge Hole Held That the Evidence Adduced Was Not Sufficient.

Lisbon, October 22.—(Special).—Judge Hole refused to grant a divorce in the case of Amelia Knopp, of Salem, versus Abraham Knopp, which was heard in court here yesterday afternoon, the court holding that the evidence adduced was not sufficient grounds. The petition was dismissed at the plaintiff's cost.

In her petition Mrs. Knopp said she was married at Salem in September, 1899, and that they have had no children. She alleged that for more than three years her husband has failed to provide for her properly, although fully able to do so. On November 25, 1901, she says, he kicked her and otherwise abused her and finally in August, 1902, abandoned her. The court

held that the fact that she had lived with the defendant so long after the instance of cruelty cited showed a condonation of the offense and that therefore this could not be regarded as a legitimate ground for divorce. The plaintiff also petitioned for the restoration of her maiden name.

## NOLLIED THE CHARGE AGAINST C. B. BOWERS

Prosecutor Brookes Said It Was Useless to Try to Convict.

Lisbon, October 22.—(Special).—At the conclusion of the testimony in the case of Ohio versus Calvin B. Bowers, an East Liverpool saloon keeper, charged with selling to a minor, which came on for trial yesterday afternoon, Prosecutor Brookes refused to allow the case to go to the jury and nollied the charges.

Mr. Brookes made a fiery statement to the court in which he said the suspicious character of the testimony adduced by the defense reflected on the credibility of its witnesses and at the same time made it useless to try to secure a conviction.

The defendant and two or three other witnesses testified that Percy Glass, the minor to whom Bowers was said to have sold, entered the saloon and tried to buy drink. In reply to Bowers' query he said he was 18 and Bowers refused to sell to him. Later the proprietor ordered the youth from his place and as Glass went out he was represented to have said he would get even.

## LOWER COURT UPHELD

Judge Hole Sustains a Probate Court Decision in a Road Case.

Lisbon, October 22.—(Special).—Judge Hole had intended giving opinions this morning in a number of cases submitted, but on account of the absence of counsel in certain cases handed down but one opinion.

In the case of James Faloon and Abraham Haessley vs. John Matthews and others, appealed from probate court, the decision of the lower court was affirmed. The case related to the vacation of a road near Millport, Franklin township, and the plaintiffs in error held that county commissioners who ordered the road vacated in 1898, had lost jurisdiction by deferring action at a meeting in December, 1895, adjourning to a time not specified.

The court held that there was no substantial error in the proceedings of the commissioners.

## LARCENY IS CHARGED

A Salem Telegraph Operator Gets Into Serious Trouble at New Castle.

New Castle, Pa., October 22.—K. T. Liber, of Salem, a telegraph operator on the Erie railroad, was arrested at Youngstown yesterday by C. A. Pally, special detective for the Erie, and brought to New Castle to answer a charge of larceny.

The information was made by E. W. Spohnholz, of the Erie detective force, charging Liber with taking \$55 in cash and three checks amounting to \$243.64 while at the local office. He is in jail awaiting a hearing before Mayor Jackson Saturday.

## Attempted Suicide in Lake Erie.

Cleveland, Oct. 22.—William B. Wallace, a traveling salesman from St. Louis, jumped into the lake from a pier at the foot of Erie street to end his life. He was taken from the water within a few moments after his plunge. At the hospital to which Wallace was taken it is stated he will die.

Old Horse Trainer Is Insane. Cleveland, Oct. 22.—Orin Hickock, for many years one of the best known trainers and drivers of famous horses, was ordered sent to the state hospital for the insane by Probate Judge White. Hickock is 69 years old and has been failing mentally and physically for some time past.

Pioneer of Lucas County Dead. Toledo, Oct. 22.—Judge Francis L. Nichols, aged 99 years, one of the oldest pioneers of Lucas county, is dead. He was one of the first officers of Lucas county, and was a judge of the courts for many years.

## Alcohol in Kidney Cures is Absurd. EDWARD BACON CURED OF KIDNEY DISEASE OF THE WORST KIND.

Edward A. Bacon of Greenwich village, Mass., P. O. Box 47 writes Aug. 3, 1903: "I can truly say that Kidney-Wort Tablets have done more good than all the doctor's medicine I have taken. I noticed a decided change for the better before I had taken the first bottle of the Tablets. I was suffering from kidney disease of the worst kind, but Kidney-Wort Tablets have stopped all inflammation and entirely cured me."

If your doctor's prescription does not fit your case, or if you have been foolish enough to take liquid kidney remedies that invariably contain dangerous alcohol—stop all other medicine and Kidney-Wort Tablets will cure you. It has cured thousands who were making no headway under their physician's care, because their doctor's prescription did not exactly hit their case. Has your urine, your back, your general health led you to wonder if your kidneys are sound? Write Dr. Pettigill, Burlington, Vermont. Give us your symptoms, he will advise you free.

## WHITERS MUST GO

Postmaster General Payne continues Weeding-Out Process in His Department.

## THERE ARE OTHERS ON THE LIST

Discharges Result of Bristow's Report.  
New York Clerk Also Implicated.  
All Guilty of Gross Extravagance.  
Were Old Employees.

Washington, Oct. 22.—Postmaster General Payne removed from office Michael W. Louis, superintendent of supplies of the postoffice department; Louis Kempner, chief of the registry division of the third assistant postmaster general's office, and C. B. Terry, a \$900 clerk in the postoffice department, and directed the postmaster at New York to remove Otto Weis, a clerk.

These removals are the first result of Fourth Assistant Postmaster General Bristow's report on the irregularities in the postoffice department. The postmaster general made an official announcement of his action as follows:

**Official Announcement.**  
"Michael W. Louis has been removed from the office of superintendent of the division of supplies because the recent investigation shows that he influenced the awarding of contracts for supplies to favored bidders; that he has been extravagant and wasteful in the administration of his office, and that he has paid excessive prices for supplies to favored contractors."

"Louis W. Kempner, superintendent of registry system, has been removed for incompetent and negligent administration; for wasteful and reckless extravagance in sending expensive mailfold registration books to a large number of small fourth-class postoffices, and for violating the revenue laws by a system of petty smuggling."

"C. B. Terry, a clerk in the division of supplies, has been removed for making false affidavit, attempting to obtain money from clerks under the guise that he could influence their promotion, and general inefficiency."

Collected Money from Clerks.  
The postmaster general also stated that the postmaster at New York had been directed to remove Otto Weis, a clerk in the New York postoffice, for collecting money from clerks to influence legislation and to procure promotions.

In reply to questions Mr. Payne said the discharges were the result of disclosures made by the Bristow report. "I have read the report," he said, "and am free to say that my action was the result of its perusal."

He declined to say whether there would be other removals as a result of the report, but it is understood that while a few others may follow there will not be any wholesale dismissals. It is stated that there are three or four other employees upon whose conduct there is some reflection and whose cases hang in the balance. They were not implicated so much as those whose cases were acted upon, and some of them may remain permanent in the postal service, though possibly not in their present positions.

**Was Confidant of Beavers.**  
Weis, the New York clerk who has been relieved, is said to have enjoyed confidential relations with George W. Beavers, late superintendent of the salary and allowance division, and he is charged with having acted as a medium through which other clerks in the New York postoffice were communicated with.

Terry is from Indiana. He was temporary clerk in the postoffice department.

## BRIGHTS DISEASE AND DIABETES NEWS

San Francisco, Oct. 12, 1903.  
To Will Reed's Pharmacy.

Dear Sirs:  
There are daily occurrences in this city that ought to be known all over the world. A guileless old gentleman, an octogenarian, a distant relative of Robert Fulton of first steamship fame, saved the lives of hundreds (probably thousands) after they were believed to be beyond human aid. His discovery is undoubtedly the long-sought cure of Bright's disease and diabetes.

This is not easy of belief and it is the purpose of a number of business and professional men of this city (of whom I am one) to tell the people. You are hereby authorized to tell all those in your city who have either Bright's Disease or Diabetes that nearly nine-tenths of them can recover.

Among the business men who are giving moral and financial support and who would give neither if the above were not strictly true are Hon. D. M. Burns, President Candelaria Mining Company; Edward Mills, President Bullock & Jones Company; Captain Roberts, President Boca and Loyalton R. Co.; Thos. Kirpatrick, Capitalist; D. E. Bender, Capitalist; Wm. Harp, Capitalist; W. C. Price, Capitalist, and many others. The pamphlet herewith are to be given to all inquirers without charge. They give the complete history of our long and exhaustive investigation.

Yours truly,  
A. E. SHATTUCK.  
President Pacific States Type Printing Co.

ment and was afterwards removed. He made charges that he had been discharged from his position by John M. Masten, then chief clerk of the first assistant postmaster general, but now assistant superintendent of the railway mail service, because he had refused to give money to Masten for his retention, and the president directed his reinstatement. It is understood that the investigation failed to substantiate Terry's charges, and his permanent removal is the result of that failure.

The possible effect of the Bristow inquiry upon the fortunes of Louis and Kempner has been much discussed. Both have been in the postal service for some years.

## SOFFEL GRANTED DIVORCE.

Jury Decides in His Favor After Ten Minutes' Deliberation.

Pittsburg, Oct. 22.—It took only 10 minutes for the jury in the Soffel divorce case to reach a decision in favor of the former jail warden, Peter K. Soffel, and specifying that Mrs. Soffel had been guilty of infidelity—first, with "Mike" Roach, then with Harry Jones, and then with Edward Biddle.

In his charge Judge McClung explained to the jury that the testimony of eye-witnesses was not absolutely necessary in deciding on the guilt of a compromised party, and that while one act of infidelity was sufficient grounds on which to base a libel for divorce, in this case he wished them to ascertain the guilt or innocence of Mrs. Soffel's relations with Roach, Jones and Biddle.

S. S. Robertson, attorney for Mrs. Soffel, stated he would at once move for a new trial, and failing in that would take the case to a higher court.

Collected Money from Clerks.

**RIOT AT DOWIE MEETING.**  
Women Knocked Down and Trampled  
on—Streets Blocked.

New York, Oct. 22.—Thirty thousand  
people tried to get into Madison  
Square garden to see John Alexander  
Dowie. About one-third that number  
had secured admittance when Dowie  
ordered the doors closed. When the  
other 20,000 found themselves shut  
out, the wildest disorder prevailed,  
and the police, 400 strong, were for a  
time utterly unable to cope with the  
mad rush of the crowd. Men and women  
were knocked down and trampled on  
and many narrowly escaped death in  
the crush.

In the surging of the throng Grace  
George, who was on her way to a thea-

ter where she is playing, was swept  
off her feet and trampled on and had  
her clothing badly torn. She accused  
the police of handling her roughly.

Mrs. William J. Buckley, of New-  
ark, N. J., was caught in the crush and  
fell fainting to the street. She was  
badly bruised.

William A. Brady, theater manager  
and husband of Grace George; Loren-  
zo Winter, broker, and Channing  
Pollock, press agent, were arrested on  
charges of disorderly conduct.

The crowd blocked all traffic for  
more than an hour and could not be  
dispersed until convinced that the  
meeting inside the garden had ended.  
Within the great hall the scene was  
comparatively tame. Dr. Dowie spoke  
only for about 15 minutes.

**Ohio Drug Store Dynamited.**  
Wooster, O., Oct. 22.—Aylesworth's  
drug store at Fredericksburg, this  
county, was blown to pieces with  
dynamite. It was first thought that  
the deed was committed by burglars,  
but later information is to the effect  
that the act is the result of bad feel-  
ing over the approaching local option  
election.

**Senator Foraker Ill.**  
Sandusky, O., Oct. 22.—Senator Joseph  
B. Foraker is ill at a hotel in  
this city. He arrived to fill a political  
engagement, but was taken with chills  
and has been unable to leave his room.  
The physicians in attendance hope to  
break the fever so that he can meet  
future campaign appointments.

Date Set for New Trial.  
Cincinnati, Oct. 22.—Judge Thomp-  
son directed that the case of D. V.  
Miller and J. M. Johns, whose trial  
last week resulted in a disagreement  
of the jury, be set for trial Nov. 16.

**Female Highway Robber Caught.**  
Youngstown, O., Oct. 22.—Jessie Mo-  
linsky, the alleged woman highway  
robber, who held up and robbed Mrs.  
Katie Sale

Brief Notes of a Personal Nature And of Matters About Town.

**A Daughter Born**—A 10-pound daughter was born at the home of Mr. and Mrs. George Evans on Second street last evening.

**Blackburn Heirs' Meeting**—The Blackburn heirs of this city and vicinity will meet at Steubenville tomorrow to hear the report of Dr. J. P. Blackburn, of McKeesport, who was sent to England to investigate the fortune.

### Albert M. Udick.

Albert M. Udick, aged 54 years, died at his home, three miles north of Smith's Ferry, last night after an illness of many years with asthma. The funeral services will be held at Union chapel near the home, tomorrow afternoon at one o'clock and the interment will be made in the church cemetery. Mr. Udick had suffered many years with asthma and for the past 14 years has been compelled to sleep in a chair because of it. He is survived by several adult children.

### McGillivray's Sentence Suspended.

Lisbon, October 22.—(Special.)—George P. McGillivray, of East Liverpool, convicted of non-support and sentenced to three months in the Canton workhouse, has secured bond of \$1,000 as a guarantee he will do his duty by his family. Sentence was suspended and McGillivray released.

### Heirs Must Appear.

## SOCIAL EVENTS

### New Century Club.

The New Century club will hold a very interesting meeting on Saturday afternoon at 2:10 o'clock at the home of the Misses Hazlett on Fifth street. The chief topic of discussion will be the "Legendary History of England." There will be several papers read and talks given on topics pertaining to the general subject as stated. The New Century club has not arranged the program for the year's work, but this will be the second meeting held. Miss E. P. Hazlett has been elected president for the ensuing year. A number of new members have joined the club.

### Missionary Society.

The Young Girls' Missionary society of the First Presbyterian church have completed arrangements for the cake sale which will be held on Saturday afternoon in the basement of the church. Miss Mary Hill, president of the society, held a meeting on Tuesday evening at the home of Miss Mabel Pilgrim on College street, when arrangements were completed. There will be a large assortment of cakes and salads on sale, which will be in charge of a number of the young ladies of the church.

### Reception to New Pastor.

Lisbon, October 22.—(Special.)—A reception for Rev. J. A. Sechrist, the new pastor of the M. E. church, was held in the church last evening and was well attended. The official board and the church, the Sunday school and the Epworth League were represented in addresses of welcome by Hon. Charles S. Speaker, George S. Williams and Miss Bertha Johnston. It was a pleasant social event. Refreshments were served.

### Girls' Friendly Society.

The Girls' Friendly Society will meet next Tuesday evening in St. Stephen's church. The members are making preparations for a box social which will take place on the evening of November 4. The business of the meeting on Tuesday evening will be to complete arrangements for the social, which thus far promises to be a success. There will be a large number of young folks present.

## TOLD TO STAY AWAY

Attempts to Secure Meeting of

Directors Frustrated by

Mr. Schwab.

## SHIPBUILDING COMPANY AFFAIR

Lewis Nixon the Principal Witness at

Hearing—Schwab Received Share

of Promotion Money—Secrecy Observed in Paying Vendors.

New York, Oct. 22.—Lewis Nixon, who from naval constructor became builder of warships and the president of the United States Shipbuilding company, was the principal witness at the continuation of the hearing before Examiner Henry D. Oilphant as to the affairs of the defunct corporation named. He did not finish his recital, but in the three hours that he was on the stand he went over much of the history of the corporation and the acts of the men prominent in its history.

He confirmed the claim of the stockholders that Max Pam, counsel for Charles M. Schwab, had suggested a number of the directors for the shipbuilding combination and said that the proposed expenditure of \$2,802,000 for improvements at the Bethlehem steel works had been approved by the directors over his protest and warning that the action might, in the end, leave the main corporation without funds and wreck it. Mr. Nixon swore that after this expenditure was approved he made several attempts to secure a meeting of the directors and that Mr. Schwab had finally told him that he had instructed the directors to remain away from the meeting.

Mr. Nixon testified that, by resolution of the directors passed in December last, Mr. Pam was given a salary of \$18,000 a year, which was dated back to the preceding September. He also testified that, besides his bonus as an underwriter and the sums paid for the Bethlehem property, Mr. Schwab received a share of the promotion money, part of which he gave to Charles Gates, of the brokerage firm of Harris, Gates & Co.

According to Mr. Nixon secrecy was observed in paying the vendors only because Promotor Young did not want them to know what was being paid for each plant. There has been much mystery over the cutting of the checks given to the vendors and it is possible that the explanation of Mr. Nixon will clear it away.

Charles Canda was the only other witness of the day, taking the stand before Nixon was called. He testified that the Canda Manufacturing company, for which \$1,100,000 in cash and securities was paid, had a plant at Carteret, N. J., built for the manufacture of car wheels, but that at the time of its purchase it was turning out some experimental work in motor carriages.

Charles M. Schwab and Max Pam attended the hearing. They came to be sworn, but remained interested listeners to all the testimony.

### FAR EASTERN SITUATION.

German Government Takes Cheerful View—Both Sides Prepared.

Berlin, Oct. 22.—The German government takes a cheerful view of the Russo-Japanese difficulties. Russia has conveyed assurances to Germany that she will keep strictly on the defensive even if Japan occupies Korean ports in force. Japan may act aggressively toward Korea without Russia being affronted thereby or making a counter-stroke. The only limitation Russia places on Japanese action is that she must not cross the Yalu river.

The impression that might be driven from the foregoing definition of Russian policy, it is pointed out here, is that the negotiations are nearing an end favorable to Japan. But, while the result of negotiations is still pending precautionary military preparations on both sides are going on.

### Company Will Reorganize.

Philadelphia, Oct. 22.—The formal announcement of the reorganization of the Consolidated Lake Superior company was announced by the reorganization committee. It does not differ from the details of the plan which have been given out from time to time. The new company will be capitalized at \$10,000,000. Forty-year 5 per cent gold bonds will be issued to the amount of \$10,000,000 and an issue of 5 per cent 20-year gold income bonds to the amount of \$3,000,000 will also be made. The plan also provides for the raising of the \$8,000,000 needed by the company, the details of which have already been made public.

### Italian Cabinet Resigns.

Rome, Oct. 22.—The cabinet has resigned. The decision to take this step was reached unanimously at a ministerial council and after Premier Zanardelli had announced that he had sent in his resignation in consequence of failing health.

### Fatality at Football Game.

Annapolis, Md., Oct. 22.—Robert E. Lewin, of Plainfield, N. H., right guard of the Baltimore Medical college, dropped dead in the first half of the football game with the navy. Neither team had scored when the game was called off.

### Japan After Warships.

## TOLD TO STAY AWAY

Attempts to Secure Meeting of Directors Frustrated by Mr. Schwab.

### SHIPBUILDING COMPANY AFFAIR

Lewis Nixon the Principal Witness at Hearing—Schwab Received Share of Promotion Money—Secrecy Observed in Paying Vendors.

New York, Oct. 22.—Lewis Nixon, who from naval constructor became builder of warships and the president of the United States Shipbuilding company, was the principal witness at the continuation of the hearing before Examiner Henry D. Oilphant as to the affairs of the defunct corporation named. He did not finish his recital, but in the three hours that he was on the stand he went over much of the history of the corporation and the acts of the men prominent in its history.

He confirmed the claim of the stockholders that Max Pam, counsel for Charles M. Schwab, had suggested a number of the directors for the shipbuilding combination and said that the proposed expenditure of \$2,802,000 for improvements at the Bethlehem steel works had been approved by the directors over his protest and warning that the action might, in the end, leave the main corporation without funds and wreck it. Mr. Nixon swore that after this expenditure was approved he made several attempts to secure a meeting of the directors and that Mr. Schwab had finally told him that he had instructed the directors to remain away from the meeting.

Mr. Nixon testified that, by resolution of the directors passed in December last, Mr. Pam was given a salary of \$18,000 a year, which was dated back to the preceding September. He also testified that, besides his bonus as an underwriter and the sums paid for the Bethlehem property, Mr. Schwab received a share of the promotion money, part of which he gave to Charles Gates, of the brokerage firm of Harris, Gates & Co.

According to Mr. Nixon secrecy was observed in paying the vendors only because Promotor Young did not want them to know what was being paid for each plant. There has been much mystery over the cutting of the checks given to the vendors and it is possible that the explanation of Mr. Nixon will clear it away.

Charles Canda was the only other witness of the day, taking the stand before Nixon was called. He testified that the Canda Manufacturing company, for which \$1,100,000 in cash and securities was paid, had a plant at Carteret, N. J., built for the manufacture of car wheels, but that at the time of its purchase it was turning out some experimental work in motor carriages.

Charles M. Schwab and Max Pam attended the hearing. They came to be sworn, but remained interested listeners to all the testimony.

### FAR EASTERN SITUATION.

German Government Takes Cheerful View—Both Sides Prepared.

Berlin, Oct. 22.—The German government takes a cheerful view of the Russo-Japanese difficulties. Russia has conveyed assurances to Germany that she will keep strictly on the defensive even if Japan occupies Korean ports in force. Japan may act aggressively toward Korea without Russia being affronted thereby or making a counterstroke. The only limitation Russia places on Japanese action is that she must not cross the Yalu river. The impression that might be driven from the foregoing definition of Russian policy, it is pointed out here, is that the negotiations are nearing an end favorable to Japan. But, while the result of negotiations is still pending precautionary military preparations on both sides are going on.

### Company Will Reorganize.

Philadelphia, Oct. 22.—The formal announcement of the reorganization of the Consolidated Lake Superior company was announced by the reorganization committee. It does not differ from the details of the plan which have been given out from time to time. The new company will be capitalized at \$40,000,000. Forty-year 5 per cent gold bonds will be issued to the amount of \$10,000,000 and an issue of 5 per cent 20-year gold income bonds to the amount of \$3,000,000 will also be made. The plan also provides for the raising of the \$5,000,000 needed by the company, the details of which have already been made public.

### Italian Cabinet Resigns.

Rome, Oct. 22.—The cabinet has resigned. The decision to take this step was reached unanimously at a ministerial council and after Premier Zanardelli had announced that he had sent in his resignation in consequence of failing health.

### Fatality at Football Game.

Annapolis, Md., Oct. 22.—Robert E. Lewis, of Plainfield, N. H., right guard of the Baltimore Medical college, dropped dead in the first half of the football game with the navy. Neither team had scored when the game was called off.

### Japan After Warships.

Santiago De Chile, Oct. 22.—It is reported here that the Chilean government is treating with Japan for the sale of two warships.
